A consistently sharp curette for every adenoidectomy

Disposable Adenoid Curettes

DEVELOPED IN CONJUNCTION WITH RODNEY P. LUSK, MD

A sharp curette for every adenoidectomy

Predictable and undamaged instruments are necessary to perform accurate and reproducible surgery. The Disposable Adenoid Curettes are designed to look and feel exactly like a standard Barnhill-type adenoid curette, but offer a reliably sharp edge for every case. Three sizes offer the proper fit for most patient variations.
