Mustard Table

ENHANCES SURGEON CONTROL AND
COMFORT FOR SUSPENSION PROCEDURES

Developed in conjunction with David S. Parsons, MD, FAAP, FACS

The Medtronic Mustard Table is an over-the-chest operating table for suspension procedures such as direct laryngoscopy, tonsillectomy, adenoidectomy, cleft palate repair, and other oral procedures.

When the patient is suspended, the Mustard Table allows you to move the OR table and patient in any direction (up/down, left/right, tilt or roll), unlike a rigid Mayo table.

- Easily attaches directly to OR table sideframe, similar to an IV pole
- Increases surgeon control and comfort, especially during suspension laryngoscopy
- Edge slots permit easy adjustment and unimpaired disconnection of mouth-gag for quick removal in emergency situations

Ordering Information

Product	Description	Quantity
3734500	Mustard Table.....	1
3734510	Mustard Table Adapter	1
