

MicroFrance®

ROBIER RETRACTOR

Product Release

The MicroFrance® Robier Retractor has unique features specifically designed for superior access to the middle fossa. Highly adjustable components allow customization to your patient's anatomy for improved visualization and stability.

- Malleable blade with integrated suction is adjustable in length, height and rotation for precise placement
- Blunt flaps anchor securely and atraumatically to cranium
- Hinged arms reduce profile to allow more working space at the surgical site
