

MicroFrance®

TEIXIDO CARTILAGE CUTTER

Developed in conjunction with Michael Teixido, MD

The Teixido Cartilage Cutter provides a simple solution to preparing cartilage grafts for tympanoplasty and ossicular chain reconstruction procedures. This user-friendly device slices cartilage in a standard thickness of 0.3 mm in one swift motion with minimal waste. Working space for trimming and measuring the cartilage is also incorporated to facilitate graft preparation.

- Minimum number of parts to clean
- Angled, replaceable blade ensures a uniform slice
- 0.3 mm cartilage slice allows for 2-3 slices per tragus
- Trimming block includes imprints of average diameter pediatric and adult tympanic membranes

Ordering Information

Product	Description	Qty
MCO255	Teixido Cartilage Cutter	1
MCO251	Replacement Blades	10
