MicroFrance®

TORIUMI RHINOPLASTY INSTRUMENT SET

Designed in conjunction with Dean Toriumi, MD

This comprehensive set provides the instruments you need for any rhinoplasty procedure. The 50-piece set comprises a combination of standard Medtronic ENT instruments and MicroFrance instruments, including the popular Toriumi Cartilage Template and Converse Scissors.

The guard and tip of the Toriumi Osteotome is specially shaped to glide along the lateral surface of the bone during lateral osteotomy, with minimal trauma to superficial tissues. The Toriumi Curved Rasp has a greatly reduced cutting surface to allow a targeted reduction of the dorsal hump and radix, and the Suction Elevators provide visibility during septoplasty.

CP1100
Toriumi Curved Rasp

CP1102
Toriumi Suction Elevator, Sharp

CP1103
Toriumi Suction Elevator, Dull

The MicroFrance® brand is a premier line of ENT instruments, designed with world-renowned ENT surgeons to facilitate new techniques and improve patient outcomes.

Toriumi Rhinoplasty Instrument Set

Designed in conjunction with Dean Toriumi, MD
