# Ordering and Warranty Information

## Pricing:

Prices stated in specific written quotations are firm for thirty days from the date given, and are otherwise subject to change without prior notice. Pricing terms stated on written agreements are governed by such agreements.

## Minimum Order Requirements:

Minimum order requirement is \$100 (a \$10 handling charge will be added to any order under \$100). For partial case orders, contact the Customer Service Department for quotation.

## Shipments:

F.O.B. Integra NeuroSciences point of shipment within the continental United States. Shipping costs (including freight and insurance), shall be prepaid by Integra and invoiced to customers.

## Ordering Procedure:

A written purchase order on customer's form may be requested for purchases of Integra NeuroSciences products.

## Acceptance of Orders:

Orders are accepted upon approval by Integra in Plainsboro, New Jersey.

## Return Policy:

- Authorization, from customer service, must be obtained prior to returning product.
- Sterile product must be returned in unopened, undamaged cartons, packed to prevent damage.
- Non-sterile product must be returned in unused saleable condition in original package.
- Custom or special order products will not be accepted for credit.
- Credit will be issued for goods returned prior to ninety days from ship date with a 20% restocking charge. This assumes that the product returned is not damaged and can be verified to have not been used or opened.

## Integra Limited Warranty

This warranty applies to INTEGRA LIFESCIENCES CORPORATION ("INTEGRA") advanced biomaterials products, including the DuraGen®, NeuraGen®, and NeuraWrap™ product lines. Integra warrants to the original purchaser only that each new INTEGRA product is free from manufacturing defects in material and workmanship under normal use and service for a period of six (6) months (except as otherwise expressly provided as to accessory items) from the date of delivery by INTEGRA to the first purchaser, but in no event beyond the expiration date stated on any product labeling.

- Surgical instruments are guaranteed to be free from defects in material and workmanship when maintained and cleaned properly and used normally for their intended purpose.
- Any covered product that is placed by INTEGRA under a lease, rental or installment purchase agreement and that requires repair service during the term of such placement agreement shall be repaired in accordance with the terms of such agreement.

If any covered defect occurs during the warranty period or term of such placement agreement, the purchaser should communicate directly with INTEGRA's home office. If purchaser seeks to invoke the terms of this warranty, the product must be returned to INTEGRA at its home office. The defective product should be returned promptly, properly packaged and postage prepaid. Loss or damage in return shipment to INTEGRA shall be at CUSTOMER's risk. INTEGRA's sole responsibility under this warranty shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements.

IN NO EVENT SHALL INTEGRA BE LIABLE FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA shall not be responsible for, any loss arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as, in INTEGRA's judgment, to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.

INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, COURSE OF PERFORMANCE, COURSE OF DEALING, USAGE OR TRADE OR OTHERWISE, OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.

## DuraGen XS™ Dural Regeneration Matrix

DuraGen XS™ Dural Regeneration Matrix is Integra's most advanced onlay graft. DuraGen XS Dural Regeneration Matrix is an absorbable implant that is indicated as a dural substitute for repair of dura mater. DuraGen XS benefits from 30% more collagen, which provides increased tensile strength and more robust handling over DuraGen Plus. After implantation, DuraGen XS is infiltrated by fibroblasts and is fully resorbed and replaced with endogenous tissue. DuraGen XS is manufactured from Ultra Pure Collagen™, handles and conforms similar to normal soft tissue, and has an excellent safety profile.

Catalog No.	Size	Unit of Measure
<b>DXM1013</b>	1" x 3"	Single Unit
<b>DXM1022</b>	2" x 2"	Single Unit
<b>DXM1033</b>	3" x 3"	Single Unit
<b>DXM1045</b>	4" x 5"	Single Unit
<b>DXM1057</b>	5" x 7"	Single Unit

## DuraGen Plus® Dural Regeneration Matrix

DuraGen Plus® Dural Regeneration Matrix is Integra's most optimized onlay graft. DuraGen Plus Dural Regeneration Matrix is an absorbable implant that is indicated as a dural substitute for repair of dura mater. DuraGen Plus has a more consistent collagen structure for superior handling over original DuraGen. After implantation, DuraGen Plus is infiltrated by fibroblasts and is fully resorbed and replaced with endogenous tissue. DuraGen Plus is manufactured from Ultra Pure Collagen™, handles and conforms similar to normal soft tissue, and has an excellent safety profile.

Catalog No.	Size	Unit of Measure
<b>DP1011</b>	1" x 1"	Single Unit

<b>DP1045</b>	4" x 5"	Single Unit
<b>DP1057</b>	5" x 7"	Single Unit

## Suturable DuraGen™ Dural Regeneration Matrix

Suturable DuraGen™ Dural Regeneration Matrix is Integra's reinforced onlay graft. It is a suturable, resorbable, onlay graft indicated as a dural substitute for the repair of dura mater. The stronger integrated-matrix design combines suturability while maintaining the biological activity of DuraGen Plus. After implantation, Suturable DuraGen is infiltrated by fibroblasts and is fully resorbed and replaced with endogenous tissue. Suturable DuraGen conforms similar to normal soft tissue and has an excellent safety profile.

Catalog No.	Size	Unit of Measure
DURS1391	1" x 3"	Single Unit
DURS2291	2" x 2"	Single Unit
DURS3391	3" x 3"	Single Unit

## DuraGen® Dural Graft Matrix

DuraGen® Dural Graft Matrix is a resorbable implant indicated as a dural substitute for the repair of dura mater. After implantation, DuraGen is infiltrated by fibroblasts and is fully resorbed and replaced with endogenous tissue. DuraGen is manufactured from Ultra Pure Collagen™, handles and conforms similar to normal soft tissue, and has an excellent safety profile.

## NeuraGen® Nerve Guide

NeuraGen® Nerve Guide is for the repair of peripheral nerves which have been completely severed. NeuraGen Nerve Guide is a semi-permeable collagen tube that isolates and provides an environment for the extension of axons and growth of Schwann cells that are the elements responsible for functional recovery following nerve injury.

## Helitene® Absorbable Collagen Hemostatic Agent-Fibrillar Form

Helitene® Absorbable Collagen Hemostatic Agent is a soft, white, pliable, absorbent fibrillar hemostatic agent. Helitene is indicated in surgical procedures (other than ophthalmological and urological surgery) as an adjunct to hemostasis when control of bleeding by ligature or conventional procedures is ineffective or impractical.

## Integra Limited Warranty

INTEGRA LIFESCIENCES CORPORATION warrants to the original purchaser only that each new MAYFIELD® product is free from manufacturing defects in material and workmanship under normal use and service for a period of one (1) years (except as otherwise expressly provided as to accessory items) from the date of delivery by INTEGRA to the first purchaser, but in no event beyond the expiration date stated on any product labeling.

- Surgical instruments are guaranteed to be free from defects in material and workmanship when maintained and cleaned properly and used normally for their intended purpose.
- Any covered product that is placed by INTEGRA under a lease, rental or installment purchase agreement and that requires repair service during the term of such placement agreement shall be repaired in accordance with the terms of such agreement.

If any covered defect occurs during the warranty period or term of such placement agreement, the purchaser should communicate directly with INTEGRA's home office. If purchaser seeks to invoke the terms of this warranty, the product must be returned to INTEGRA at its home office. The defective product should be returned promptly, properly packaged and postage prepaid. Loss or damage in return shipment to INTEGRA shall be at CUSTOMER's risk. INTEGRA's sole responsibility under this warranty shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements.

IN NO EVENT SHALL INTEGRA BE LIABLE FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA shall not be responsible for, any loss arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as, in INTEGRA's judgment, to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.

INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTY ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, USAGE OR TRADE OR OTHERWISE, OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.

## MAYFIELD® Infinity Skull Clamp

Provides 3-point rigid cranial fixation.

- Added length and curved contours of the skull clamp uprights
- Multiple rocker arm options-Standard, Triad, Pediatric, Single-Pin
- 80lb and 18lb Torque Screw Options

Catalog No.

**A1114**

## MAYFIELD® Modified Skull Clamp

Provides 3-point rigid cranial fixation.

- Flexibility and safety in positioning of skull pins around critical areas
- Quick-release lock

Catalog No.

**A1059**

## MAYFIELD® 2000 Skull Clamp

Provides 3-point rigid cranial fixation.

- Streamlined body design and low profile single pin side facilitates greater exposure to the operative site
- Unique swivel rocker arm mechanism permits greater flexibility in patient positioning

Catalog No.

**A2000**

# Skull Clamps and Headrest Systems

## MAYFIELD Triad™ Skull Clamp

Provides 3-point rigid cranial fixation.

- Provides visual indication of clamping force on ALL THREE skull pins
- Ability to adjust the force on ALL THREE skull pins
- Equal impingement of pins ensures firm skull positioning and fixation

Catalog No.

A1108

## MAYFIELD® Adult Horseshoe Headrest

Horseshoe shaped headrest provides cranial support in the prone or supine position for adults and older children.

- Vertical and lateral adjustments allow flexibility in patient positioning
- Connects directly to the Transitional member for chin-to-chest positioning
- Adjustable pad base accommodates various head sizes
- Fluid resistant gel pads provide comfort and reduce the incidence of pressure necrosis
- Easily cleaned
- Pulley Rod attachment for skeletal traction

Catalog No.

A1011

## MAYFIELD® Adult Horseshoe Headrest

Horseshoe shaped headrest provides cranial support in the prone or supine position for adults and older children.

- Vertical and lateral adjustments allow flexibility in patient positioning
- Adjustable pad base accommodates various head sizes
- Fluid resistant gel pads provide comfort and reduce the incidence of pressure necrosis
- Easily cleaned
- Pulley Rod attachment for skeletal traction

Catalog No.

A1012

## MAYFIELD® Pediatric Horseshoe Headrest

Horseshoe shaped headrest provides cranial support in the prone or supine position for infants and young children.

- Vertical and lateral adjustments allow flexibility in patient positioning
- Adjustable pad base accommodates various head sizes
- Fluid resistant gel pads provide comfort and reduce the incidence of pressure necrosis
- Easily cleaned

Catalog No.

A1051

## MAYFIELD® General Purpose Headrest

Provides cranial support and positioning when rigid fixation is not needed.

- Headrest pads easily contour to a patient's head

Catalog No.

A1008

## Papadopoulos Posterior Cervical Spine (PCS) Support

Supports the cervical spine in an anatomical position.

- Firm posterior cervical spine support for anterior approaches
- Ratcheting System allows for easy intraoperative cervical extension
- Base is radiolucent to facilitate intraoperative imaging

Catalog No.

A1073

## MAYFIELD® Infinity Support System

Provides multiple headrests for cranial support in the prone or supine position for pediatric patients (ages 5+) and adults. Attaches to any MAYFIELD® Base Unit.

Catalog No.

A1112

## MAYFIELD® Ultra 360™ Patient Positioning System

Support/Mounting device that facilitates attachment of MAYFIELD® Skull Clamps and Headrest Systems to the OR table.

- Independent rotating and self-locking handles provide more fluid and flexible movement allowing better connection to the desired skull clamp
- Set-up time is reduced because of the quick action handles
- Self-locking levers for added security

**Catalog No.**

**A2009**

## MAYFIELD® Ultra Base Unit

Support/Mounting device that facilitates attachment of MAYFIELD® Skull Clamps and Headrest Systems to the OR table.

- 33% more weight and force bearing capacity
- Specifically designed for use with the MAYFIELD® Tri-Star Swivel Adaptor (A-2008)
- Patent pending

**Catalog No.**

**A2101**

## MAYFIELD® NeuroGen Adaptor

Support/Mounting device that allows attachment of base units to the OR table when receptacle holes are absent or inappropriate.

- Easily attaches to OR table side rails
- Adjustable end bracket to fit a variety of table widths

**Catalog No.**

**A1113**

## MAYFIELD® Tri-Star Swivel Adaptor

Attaches to MAYFIELD® Ultra Base Unit (A-2101) to provide optimal flexibility in positioning via 360-degree rotation. (Tri-Star must be used with the Ultra Base Unit or a MAYFIELD® Base Unit upgraded to include the Ultra locking handle.)

- Provides two additional starbursts to facilitate attachment of ancillary components such as IGS dynamic reference frames and articulating arms
- Starburst can rotate 360-degrees independent of skull clamp
- Adapts headrests and skull clamps to MAYFIELD® Base Units
- Patent pending

Catalog No.

A2008

## MAYFIELD® Swivel Adaptor

Attaches to MAYFIELD® Base Unit to provide optimal flexibility in positioning via 360-degree rotation.

- Adapts headrests and skull clamps to MAYFIELD® Base Units

Catalog No.

A1018

## MAYFIELD® Ball Socket Swivel Adaptor

Attaches to MAYFIELD® Base Unit to provide optimal flexibility in positioning via 360-degree rotation with tilt in any axis.

- Unique locking pivot permits precise patient positioning
- Exclusive spring-loaded mechanism provides assured stability and secure lock
- Adapts headrests and skull clamps to MAYFIELD® Base Units

Catalog No.

A1064

## MAYFIELD® Crossbar Adaptor

- For seated position procedures, easily mounts to the OR table side rails to adapt all MAYFIELD® Skull Clamps for posterior fossa craniotomy procedures or posterior cervical laminectomies
- Allows for unobstructed viewing to the posterior cervical spine and occipital areas
- Compatible with most currently available OR tables

Catalog No.

A1015

## MAYFIELD® Universal Side Rail Fitting

- For attaching the MAYFIELD® Crossbar Adaptor (A-1015) and other products to the OR table
- Compatible with most currently available OR tables

Catalog No.

A1060

## MAYFIELD® Horseshoe Conversion Adaptor

Allows an A1011 Horseshoe Headrest to attach to a MAYFIELD® swivel Adaptor.

- Provides the means of attaching an A1011 or A1051 to a MAYFIELD® Ultra 360™ Patient Positioning System

Catalog No.

A1109

## MAYFIELD® Triad Horseshoe Conversion Adaptor w/Knobs

Allows an A1012 Horseshoe Headrest to attach to standard Transitional Members.

- Provides the means of obtaining chin-to-chest positioning

Catalog No.

A1110

## MAYFIELD® Modified Swivel Adaptor

Attaches to MAYFIELD® Base Units (except for A2009) to provide optimal flexibility in positioning via 360-degree rotation.

- Spring loaded pin contacts ratchet arm of skull clamp to minimize movement of the skull clamp components
- Ideal for use with Image-Guided Surgery (IGS) procedures

Catalog No.

A1115

## MAYFIELD® Modified Tri-Star Swivel Adaptor

Attaches to MAYFIELD® Base Unit A2101 to provide optimal flexibility in positioning via 360-degree rotation.

- Spring loaded pin contacts ratchet arm of skull clamp to minimize movement of the skull clamp components
- Ideal for use with Image-Guided Surgery (IGS) procedures with additional starbursts for ancillary IGS components

Catalog No.

A1116

## MAYFIELD® Adult Disposable Skull Pins

Fit all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Patented “Wings” design of the pin body improves the fit into receptacle holes of all MAYFIELD® Skull Clamps
- Unique finger grooves molded into the pin body facilitate sure grip and easy removal from pin holders

Catalog No.

A1072

---

## MAYFIELD® Adult Disposable Skull Pins (Steel)

Fit all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Red O-ring connotes a disposable product; ensures a secure fit

Catalog No.

A1083

---

## MAYFIELD® Child Disposable Skull Pins (Steel)

Fit all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Pinpoint reduced to control penetration
- Red O-ring connotes a disposable product; ensures a secure fit

Catalog No.

A1084

## MAYFIELD® Radiolucent Skull Pins

Fit all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Engineered from synthetic Sapphire material to significantly reduce or limit artifact during CT and MR imaging
- Patented "Wings" design of the pin body improves the fit into receptacle holes of all MAYFIELD® Skull Clamps
- Unique finger grooves molded into the pin body facilitate sure grip and easy removal from pin holders

Catalog No.

A2020

## MAYFIELD® Adult Reusable Skull Pins (Steel)

Fit all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Black O-ring connotes a reusable product; secure fit

Catalog No.

A1047

## MAYFIELD® Child Reusable Skull Pins (Steel)

Fit all MAYFIELD® Skull allow rigid cranial fixation.

- Pinpoint reduced to control penetration
- Black O-ring connotes reusable product; secure fit

Catalog No.

A1048

## MAYFIELD® Child Disposable Titanium Skull Pins

Fits all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Designed and tested for use in MR Systems up to 3.0 Tesla (T)\*
- Pinpoint reduced to control penetration
- Patented "Wings" that improve fit into pin receptacles of skull clamps
- Unique finger grooves that provide a sure grip for easy removal
- Supplied sterile packaged

**Catalog No.**

**A1119**

---

## MAYFIELD® Adult Disposable Titanium Skull Pins

Fits all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Designed and tested for use in MR Systems up to 3.0 Tesla (T)\*
- Patented "Wings" that improve fit into pin receptacles of skull clamps
- Unique finger grooves that provide a sure grip for easy removal
- Supplied sterile packaged

**Catalog No.**

**A1120**

\* These skull Pins are MR Conditional according to terminology specified in the American Society for Testing and Materials (ASTM). International, Designation: F2503-05. See *Product Indications for Use* for conditions.

## MAYFIELD® Adult Reusable Titanium Skull Pins

Fits all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Designed and tested for use in MR Systems up to 3.0 Tesla (T)\*
- Black o-ring designates it as a reusable skull pin

Catalog No.

A1121

---

## MAYFIELD® Child Reusable Titanium Skull Pins

Fits all MAYFIELD® Skull Clamps to allow rigid cranial fixation.

- Designed and tested for use in MR Systems up to 3.0 Tesla (T)\*
- Black o-ring designates it as a reusable skull pin
- Pinpoint reduced to control penetration

Catalog No.

A1122

\* These skull Pins are MR Conditional according to terminology specified in the American Society for Testing and Materials (ASTM). International, Designation: F2503-05. See Product *Indications for Use* for conditions.

## MAYFIELD® Infinity XR2 Radiolucent Base Unit

Radiolucent Base unit with excellent rigidity and a new level of enhanced stability for the attachment of MAYFIELD Radiolucent Skull Clamps (A2002, A2114) and Headrests (A2010, A2011) to the OR table.

- Indicated for X-ray imaging compatibility, CT, Fluoroscopy and Digital Subtraction Angiography (DSA)
- Improved strength and durability using composite materials that preserve target visualization during fluorography imaging
- Set-up and positioning is easy with the simplified linkage components that are secured by color-coded dual-action knobs, saving operating room time
- Horizontal bar provides a wide imaging window-full, side-to-side lateral positioning (21.5 inches/54.6cm)

**Catalog No.**

**A2079**

## MAYFIELD® Infinity XR2 Radiolucent Skull Clamp

Provides trusted 3-Point Fixation, Minimal Artifact-attaches to the MAYFIELD® Radiolucent Base Units (A1079, A2079)

- Provides rigid 3-point skeletal fixation for all cranial and cervical procedures involving x-ray imaging, including Digital Subtraction Angiography (DSA)
- Composite materials provide strength, durability and reduced artifact
- Force knob is on the single-pin side of the clamp, the same as other MAYFIELD® skull clamps
- Ratchet extension is guided and fixed in place by a double-pawl feature to allow better control of the extension, requiring less force to apply the clamp to the patient

**Catalog No.**

**A2114**

## MAYFIELD® Infinity XR2 Optional Accessories

Completing the MAYFIELD® Infinity XR2 Radiolucent Products are the following optional accessories:

- XR2 Tri-Star Swivel Adaptor (A2111)-provides two additional starbursts for when image-guided surgery systems are required. The dual starburst bar can be independently rotated 360-degrees for optimal positioning.
- Child's Rocker Arm (439A1091) is available as an accessory
- Metal-Free Conversion Accessory (439A1092) allows for the use of the Removable Force Applicator (439A1093) to further limit artifact during the x-ray imaging process.

### Catalog No's.

## MAYFIELD® Radiolucent Horseshoe Headrest

Provides cranial support in the prone or supine position for adults and older children where DSA is utilized.

- Constructed of radiolucent materials to minimize artifact during imaging
- Compatible with both adaptors on the MAYFIELD® Radiolucent Base Units
- Includes pulley rod attachment for skeletal retraction (easily removed)

### Catalog No.

A2010

## MAYFIELD® Pediatric Radiolucent Horseshoe Headrest

Provides cranial support in the prone or supine position for pediatric patients where DSA is utilized.

- Constructed of radiolucent materials to minimize artifact during imaging
- Compatible with both adaptors on the MAYFIELD® Radiolucent Base Units

### Catalog No.

## Integra™ Cranial Stabilization Covers

Non-sterile, Disposable Equipment Covers designed to protect your MAYFIELD® systems.

- Quick, easy set-up and removal
- Conveniently packaged in cartons of 24 covers
- For use with all MAYFIELD® skull clamps, swivel adaptors, and base units

Catalog No.

**A1118**

## BUDDE® Halo Radiolucent Retractor System

Attaches to MAYFIELD® Skull Clamps. Provides a sturdy platform for retraction and a ready support or hand rest for the surgeon.

- Radiolucent components allow the frame to remain in place during intraoperative imaging for optimal efficiency
- Compatible with the MAYFIELD® Radiolucent Headrest System (A-2004)

Catalog No.

A1096

## BUDDE® Halo Retractor System

Attaches to MAYFIELD® Skull Clamps or to the side rails of the OR table to provide a sturdy platform for retraction and a ready support or hand rest for the surgeon.

- Double-Hinged ContinuTrac™ halo ring provides 360-degrees of uninterrupted retractor arm placement for ultimate flexibility
- Low profile design allows for ease of instrument passage within the surgical field

Catalog No.

A1040

## SAMY Vascular Retractors

Specifically designed for retraction of blood vessels with BUDDE® Halo Retractor Systems, or other retractor systems.

- Curved retractor tips fit the circumference of the vessel, spreading distribution of retractor forces onto more surface area of the vessel
- Enables the Neurosurgeon to elevate, retract, and/or depress the vessel, providing movement in three dimensions
- Exceptional retractor design helps prevent compression of the vessel

Catalog No.

438A1200A – Short

438A1200B – Long

## Integra™ Brain Retractor System

Attaches to MAYFIELD® Skull Clamps to provide a sturdy platform for retraction and a ready support or hand rest for the surgeon.

- Modular self-retaining components allow for a variety of configurations to surround the surgical field
- Allows for a low profile set-up for ease of instrument passage within the surgical field
- Compatible with MAYFIELD® Skull Clamps; can be brought into the surgical field at any stage during the procedure

# Ordering and Warranty Information

## Pricing:

Prices stated in specific written quotations are firm for thirty days from the date given, and are otherwise subject to change without prior notice. Pricing terms stated on written agreements are governed by such agreements.

## Minimum Order Requirements:

Minimum order requirement is \$100 (a \$10 handling charge will be added to any order under \$100). For partial case orders, contact the Customer Service Department for quotation.

## Shipments:

F.O.B. Integra NeuroSciences point of shipment within the continental United States. Shipping costs (including freight and insurance), shall be prepaid by Integra and invoiced to customers.

## Ordering Procedure:

A written purchase order on customer's form may be requested for purchases of Integra NeuroSciences products.

## Acceptance of Orders:

Orders are accepted upon approval by Integra in Plainsboro, New Jersey.

## Return Policy:

- Authorization, from customer service, must be obtained prior to returning product.
- Sterile product must be returned in unopened, undamaged cartons, packed to prevent damage.
- Non-sterile product must be returned in unused saleable condition in original package.
- Custom or special order products will not be accepted for credit.
- Credit will be issued for goods returned prior to ninety days from ship date with a 20% restocking charge. This assumes that the product returned is not damaged and can be verified to have not been used or opened.

## Integra Limited Warranty

INTEGRA LIFESCIENCES CORPORATION ("INTEGRA") warrants to the original purchaser only that each new INTEGRA product is free from manufacturing defects in material and workmanship under normal use and service for a period of two (2) years (except as otherwise expressly provided as to accessory items) from the date of delivery by INTEGRA to the first purchaser, but in no event beyond the expiration date stated on any product labeling.

- Surgical instruments are guaranteed to be free from defects in material and workmanship when maintained and cleaned properly and used normally for their intended purpose.
- Any covered product that is placed by INTEGRA under a lease, rental or installment purchase agreement and that requires repair service during the term of such placement agreement shall be repaired in accordance with the terms of such agreement.

If any covered defect occurs during the warranty period or term of such placement agreement, the purchaser should communicate directly with INTEGRA's home office. If purchaser seeks to invoke the terms of this warranty, the product must be returned to INTEGRA at its home office. The defective product should be returned promptly, properly packaged and postage prepaid. Loss or damage in return shipment to INTEGRA shall be at CUSTOMER's risk. INTEGRA's sole responsibility under this warranty shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements.

IN NO EVENT SHALL INTEGRA BE LIABLE FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA shall not be responsible for, any loss arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as, in INTEGRA's judgment, to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.

INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTY ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, USAGE OR TRADE OR OTHERWISE, OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.

## KraniOS™ 1.6mm Cranial Closure System

Titanium 1.6mm screws with a characteristic head design have high strength that help reduce stripping while maintaining a low profile. The ergonomically designed screwdriver ensures easy and secure loading, and a comprehensive selection of plates, mesh, instruments and screws provide convenient cranial closure.

## Integra Warranty for CUSA Selector® Ultrasonic Surgical Aspirator and CUSA NXT™ Ultrasonic Tissue Ablation System

### 1. Warranty.

INTEGRA LIFESCIENCES CORPORATION and its wholly owned subsidiaries ("Integra") warrant to Integra authorized distributors and the original purchaser only that each new Integra Cusa Selector® Ultrasonic Surgical Aspirator (hereinafter the Equipment or the product) is free from manufacturing defects in material and workmanship under normal use and service for a period of one (1) year (except as otherwise expressly provided as to accessory items) from the date of invoice by Integra (or its authorized distributor) to the original purchaser, but in no event beyond the expiration date stated on any product labeling (hereinafter the Warranty Period). For purposes of products sold by Integra through an authorized distributor of Integra, "original purchaser" shall include the purchaser of Integra products to whom the distributor first sells the product. The original purchaser is hereinafter referred to as Customer.

- 1.1. Coverage. During the Warranty Period, Integra shall provide free-of-charge service and maintenance consistent with the provisions of Section 3 of this Warranty, so that the Equipment conforms to the specifications defined in the Cusa Selector® Ultrasonic Surgical Aspirator Operator's Manual, as such Operator's Manual may be modified by Integra from time to time (the "Specifications").
- 1.2. Exclusions. The Warranty shall not apply in any manner to service or maintenance of the Equipment, or to replacement of its parts, with respect to:
  - (i) use of Equipment with any tips, flues, and manifold tubing sets and accessories other than those manufactured by Integra LifeSciences;
  - (ii) defects arising out of materials or parts provided, modified or designed by anyone other than an authorized Integra service agent (the Integra "Service Agent");
  - (iii) defects emanating from improper or negligent installation, storage or use of the Equipment or any component thereof, including but not limited to operating the Equipment not in accordance with instructions provided in the Operator's Manual;
  - (iv) defects arising from improper or negligent cleaning or sterilization methods or improper maintenance of the Equipment;
  - (v) defects resulting from repairs or service of the Equipment provided other than by Integra or its authorized representatives;
  - (vi) defects arising from accidental damage to the Equipment, acts of God, electrical power damage, equipment malfunction, unusual stress, unreasonable operating procedures or abnormal or extreme operating conditions; and
  - (vii) normal wear and tear.

### 2. Service, Repairs and Replacement.

2.1. Service and Repairs. All service and repairs covered by this Warranty may be referred to hereinafter as "in-warranty repairs," and all service and repairs not covered by this Warranty may be referred to as "out-of-warranty repairs." Integra's sole obligation for in-warranty repairs shall be to make all necessary adjustments and repairs in accordance with this Warranty. Integra shall charge Customer at Integra standard rates for any out-of-warranty repair performed by Integra.

2.2. Equipment Replacement. The defective Equipment or part thereof that is replaced in accordance with the Warranty shall be the property of Integra. Integra reserves the right to fill spare parts requests using refurbished sub-assemblies provided that such sub-assemblies are functionally equivalent to new sub-assemblies and carry the same warranty as the replaced sub-assemblies.

2.3. Notification. In order to avail itself of its rights under the Warranty, Customer or Integra authorized distributors, must immediately notify Integra of any defects and provide Integra every opportunity to inspect and remedy defects.

### 3. Repair Parts and Services.

3.1. Included under the Warranty are the following services:

- 3.1.1. Consoles. Integra or its distributor, when authorized for this purpose, shall, if possible, perform on-site repair of consoles and where not possible or otherwise decided at the sole discretion of Integra, Integra or its distributor shall arrange and pay to ship the affected Equipment to the designated repair facility. Integra or its distributor authorized for this purpose shall repair the affected Equipment or replace a console by a new or refurbished console (all of which at the discretion of Integra), that shall carry the same remaining warranty as the original equipment.
- 3.1.2. Handpieces. Integra shall repair or replace any defective handpieces covered by the Warranty by a new or refurbished handpiece (all of which at the discretion of Integra) that shall carry the same remaining warranty as the original equipment (an "Exchange Handpiece").
- 3.2. Modifications to Covered Equipment. From time to time, at its sole discretion, Integra may propose modifications to the covered Equipment and to the Specifications for the Equipment. Subject to Customer's approval and at its sole expense, the Customer may request Integra to make such modifications to the covered Equipment and to the Specifications. Integra shall make such modifications for the Customer, which modifications may include the installation of new parts in the Equipment, at a price equal to the then-current list price for such modifications, as such list price is established by Integra in its sole discretion.

### 4. Quality Control.

- 4.1. Customer shall maintain reasonable standards of quality control, operations, procedures, safety testing and inspection of Equipment to ensure that unnecessary service or maintenance is not required hereunder.
- 4.2. Customer shall provide a technical counterpart to Integra's Service Agent for assistance in Integra's telephonic diagnosis of the malfunction with the Equipment. Customer shall reasonably accept Integra's determination whether a repair or service is an in-warranty repair or an out-of-warranty repair.

### 5. Limitation of Liability.

- 5.1. INTEGRA's sole responsibility under the warranties described in Section 1 shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements. THE WARRANTIES DESCRIBED IN SECTION 1 HEREOF ARE EXCLUSIVE AND ARE GIVEN AND ACCEPTED IN LIEU OF ALL OTHER WARRANTIES OF INTEGRA OR ITS SERVICE AGENTS WITH RESPECT TO THE QUALITY, PERFORMANCE AND OPERATION OF THE EQUIPMENT, WRITTEN OR ORAL, EXPRESS OR IMPLIED, AND WHETHER OR NOT ATTRIBUTABLE TO SERVICE PERFORMED PURSUANT TO THE WARRANTY. ALL OTHER REPRESENTATIONS OR WARRANTIES OF INTEGRA OR ITS REPRESENTATIVES, EXPRESS OR IMPLIED, WITH RESPECT TO THE EQUIPMENT OR THE SERVICES, DIAGNOSIS, ADVICE, ASSISTANCE OR PARTS TO BE TENDERED PURSUANT TO THE WARRANTY, INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY EXPRESSLY DISCLAIMED. IN NO EVENT SHALL INTEGRA, ITS ASSIGNEES OR SERVICE AGENTS BE LIABLE FOR LOSS OF USE, REVENUE OR PROFIT OR ANY OTHER INDIRECT, INCIDENTAL, EXEMPLARY, CONSEQUENTIAL, SPECIAL OR OTHER DAMAGES, WHETHER ARISING IN CONTRACT OR IN TORT, BY VIRTUE OF THE WARRANTY OR ANY PERFORMANCE OR BREACH BY INTEGRA, ITS ASSIGNEES OR SERVICE AGENTS HEREUNDER OR PURSUANT HERETO.
- 5.2. Customer agrees that, notwithstanding the technical assistance provided pursuant to the Warranty by Integra or its representatives, Customer shall be fully and solely responsible for all treatments performed or attempted with the Equipment. INTEGRA MAKES NO REPRESENTATION OR WARRANTY AS TO THE EFFICACY OF THE EQUIPMENT OR OF THE TECHNICAL ASSISTANCE TO BE RENDERED BY INTEGRA, ITS ASSIGNEES OR SERVICE AGENTS, FOR PURPOSES OF THE PARTICULAR TREATMENT THAT CUSTOMER INTENDS TO PERFORM FOR THIRD PARTIES. Moreover, Integra disclaims any liability with respect to the efficacy of the Equipment or of said technical assistance or with respect to any claims by third parties related to any treatment performed by Customer.
- 5.3. THIS INTEGRA LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART OR THE PART OF ITS DISTRIBUTORS, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.  
  
INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.
- 5.4. IN NO EVENT SHALL INTEGRA AUTHORIZED DISTRIBUTORS BE LIABLE TOWARDS CUSTOMER FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA authorized distributors shall not be responsible towards Customer for, any loss, arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS INTEGRA DISTRIBUTOR LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES TOWARDS CUSTOMER, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES TOWARDS CUSTOMER ON INTEGRA AUTHORIZED DISTRIBUTOR'S PART.  
  
INTEGRA AUTHORIZED DISTRIBUTORS DISCLAIM ALL OTHER WARRANTIES TOWARDS CUSTOMER, EXPRESS OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS OR OTHER THIRD PARTIES.
- 5.5. Force Majeure. Notwithstanding anything to the contrary herein contained, if the performance of the Warranty by Integra, Integra authorized distributors, or Customer or any obligation of Integra, Integra authorized distributors, or Customer hereunder is prevented, restricted or interfered with by reason of fire, explosion, act of God, labor disputes or accidents affecting performance under the Warranty, or war, mobilization, civil commotions, blockade or embargo, or any future law, regulation, ordinance or requirement of any government or regulatory agency or any other act, whatsoever similar to those above enumerated, or any other circumstance being beyond the reasonable control of Integra, Integra authorized distributors, or Customer, then and in that event Integra, Integra authorized distributors, or Customer, as the case may be, shall promptly notify the other party hereto of the difficulties resulting therefrom, and any of the foregoing events shall excuse any performance required under the Warranty.

## CUSA NXT™

### Ultrasonic Tissue Ablation System

The CUSA NXT™ System is the newest member of the CUSA family. The CUSA NXT system features revolutionary NXT Digital Architecture™ and a touch-screen user interface.

The CUSA NXT System supports the current selection of the CUSA Selector® handpieces.

The CUSA NXT System is a compact and portable unit. The Console can be connected to the wall suction in the operating room, or used with the CUSA NXT Service Module for optimized aspiration performance.

The CUSA NXT System is designed for use in suites with intraoperative magnetic resonance imaging equipment. The Rapid Restore™ feature returns the CUSA NXT to its most recent system settings when powered on after imaging.

Catalog Number	Description	Quantity
<b>CUSANXT</b>	CUSA NXT Console, Footswitch, Power Cord, Operator's Manual	EACH 1
<b>CUSANXT1</b>	CUSA NXT Service Module	EACH 1

## CUSA selector®

### Ultrasonic Surgical Aspirator System

The CUSA Selector® Console is the power source for the CUSA Selector handpieces and provides aspiration and irrigation control. The latter is via an integral peristaltic pump, able to deliver a range of flow rates from 1-50 ml/min.

The CUSA Selector Service Module provides a source of aspiration and waste collection for the CUSA Selector Console. Alternatively, the CUSA Selector Console can be connected directly to the suction/waste source within the operating room.

An MRI safe version of the CUSA Selector Console is available for use in intraoperative MRI suites.

Catalog Number	Description	Quantity

# Ordering and Warranty Information

## Pricing:

Prices stated in specific written quotations are firm for thirty days from the date given, and are otherwise subject to change without prior notice. Pricing terms stated on written agreements are governed by such agreements.

## Minimum Order Requirements:

Minimum order requirement is \$250 (a \$20 handling charge will be added to any order under \$250). For partial case orders, contact the Customer Service Department for a quotation.

## Ordering Procedure:

A written purchase order on the customer's form may be requested for purchases of Integra LifeSciences products.

## Acceptance of Orders:

Orders are accepted upon approval by Integra Customer Service.

## Return Policy:

- Authorization from customer service must be obtained prior to returning product.
- Sterile product must be returned in unopened, undamaged cartons, packed to prevent damage.

- Non-sterile product must be returned in unused saleable condition in original package.
- Custom or special order products will not be accepted for credit.
- Credit will be issued for goods returned prior to ninety days from ship date with a 20% restocking charge. This assumes that the product returned is not damaged and can be verified to have not been used or opened.

## Integra Warranty for CUSA EXcel® and CUSA EXcel+® Ultrasonic Surgical Aspiration System

### 1. Warranty.

INTEGRA LIFESCIENCES CORPORATION and its wholly owned subsidiaries ("Integra") warrant to Integra authorized distributors and the original purchaser only that each new Integra Cusa EXcel® Ultrasonic Surgical Aspirator (hereinafter the Equipment or the product) is free from manufacturing defects in material and workmanship under normal use and service for a period of one (1) year (except as otherwise expressly provided as to accessory items) from the date of invoice by Integra (or its authorized distributor) to the original purchaser, but in no event beyond the expiration date stated on any product labeling (hereinafter the Warranty Period). For purposes of products sold by Integra through an authorized distributor of Integra, "original purchaser" shall include the purchaser of Integra products to whom the distributor first sells the product. The original purchaser is hereinafter referred to as Customer.

- 1.1. Coverage. During the Warranty Period, Integra shall provide free-of-charge service and maintenance consistent with the provisions of Section 3 of this Warranty, so that the Equipment conforms to the specifications defined in the Cusa EXcel® Ultrasonic Surgical Aspirator Operator's Manual, as such Operator's Manual may be modified by Integra from time to time (the "Specifications").
- 1.2. Exclusions. The Warranty shall not apply in any manner to service or maintenance of the Equipment, or to replacement of its parts, with respect to:
  - (i) use of Equipment with any tips, flues, and manifold tubing sets and accessories other than those manufactured by Integra LifeSciences;
  - (ii) defects arising out of materials or parts provided, modified or designed by anyone other than an authorized Integra service agent (the Integra "Service Agent");
  - (iii) defects emanating from improper or negligent installation, storage or use of the Equipment or any component thereof, including but not limited to operating the Equipment not in accordance with instructions provided in the Operator's Manual;
  - (iv) defects arising from improper or negligent cleaning or sterilization methods or improper maintenance of the Equipment;
  - (v) defects resulting from repairs or service of the Equipment provided other than by Integra or its authorized representatives;
  - (vi) defects arising from accidental damage to the Equipment, acts of God, electrical power damage, equipment malfunction, unusual stress, unreasonable operating procedures or abnormal or extreme operating conditions; and
  - (vii) normal wear and tear.

### 2. Service, Repairs and Replacement.

- 2.1. Service and Repairs. All service and repairs covered by this Warranty may be referred to hereinafter as "in-warranty repairs," and all service and repairs not covered by this Warranty may be referred to as "out-of-warranty repairs." Integra's sole obligation for in-warranty repairs shall be to make all necessary adjustments and repairs in accordance with this Warranty. Integra shall charge Customer at Integra standard rates for any out-of-warranty repair performed by Integra.
- 2.2. Equipment Replacement. The defective Equipment or part thereof that is replaced in accordance with the Warranty shall be the property of Integra. Integra reserves the right to fill spare parts requests using refurbished sub-assemblies provided that such sub-assemblies are functionally equivalent to new sub-assemblies and carry the same warranty as the replaced sub-assemblies.
- 2.3. Notification. In order to avail itself of its rights under the Warranty, Customer or Integra authorized distributors, must immediately notify Integra of any defects and provide Integra every opportunity to inspect and remedy defects.

## 3. Repair Parts and Services.

3.1. Included under the Warranty are the following services:

- 3.1.1. Consoles. Integra or its distributor, when authorized for this purpose, shall, if possible, perform on-site repair of consoles and where not possible or otherwise decided at the sole discretion of Integra, Integra or its distributor shall arrange and pay to ship the affected Equipment to the designated repair facility. Integra or its distributor authorized for this purpose shall repair the affected Equipment or replace a console by a new or refurbished console (all of which at the discretion of Integra), that shall carry the same remaining warranty as the original equipment.
- 3.1.2. Handpieces. Integra shall repair or replace any defective handpieces covered by the Warranty by a new or refurbished handpiece (all of which at the discretion of Integra) that shall carry the same remaining warranty as the original equipment (an "Exchange Handpiece").
- 3.2. Modifications to Covered Equipment. From time to time, at its sole discretion, Integra may propose modifications to the covered Equipment and to the Specifications for the Equipment. Subject to Customer's approval and at its sole expense, the Customer may request Integra to make such modifications to the covered Equipment and to the Specifications. Integra shall make such modifications for the Customer, which modifications may include the installation of new parts in the Equipment, at a price equal to the then-current list price for such modifications, as such list price is established by Integra in its sole discretion.

## 4. Quality Control.

- 4.1. Customer shall maintain reasonable standards of quality control, operations, procedures, safety testing and inspection of Equipment to ensure that unnecessary service or maintenance is not required hereunder.
- 4.2. Customer shall provide a technical counterpart to Integra's Service Agent for assistance in Integra's telephonic diagnosis of the malfunction with the Equipment. Customer shall reasonably accept Integra's determination whether a repair or service is an in-warranty repair or an out-of-warranty repair.

## 5. Limitation of Liability.

- 5.1. INTEGRA's sole responsibility under the warranties described in Section 1 shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements. THE WARRANTIES DESCRIBED IN SECTION 1 HEREOF ARE EXCLUSIVE AND ARE GIVEN AND ACCEPTED IN LIEU OF ALL OTHER WARRANTIES OF INTEGRA OR ITS SERVICE AGENTS WITH RESPECT TO THE QUALITY, PERFORMANCE AND OPERATION OF THE EQUIPMENT, WRITTEN OR ORAL, EXPRESS OR IMPLIED, AND WHETHER OR NOT ATTRIBUTABLE TO SERVICE PERFORMED PURSUANT TO THE WARRANTY. ALL OTHER REPRESENTATIONS OR WARRANTIES OF INTEGRA OR ITS REPRESENTATIVES, EXPRESS OR IMPLIED, WITH RESPECT TO THE EQUIPMENT OR THE SERVICES, DIAGNOSIS, ADVICE, ASSISTANCE OR PARTS TO BE TENDERED PURSUANT TO THE WARRANTY, INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY EXPRESSLY DISCLAIMED. IN NO EVENT SHALL INTEGRA, ITS ASSIGNEES OR SERVICE AGENTS BE LIABLE FOR LOSS OF USE, REVENUE OR PROFIT OR ANY OTHER INDIRECT, INCIDENTAL, EXEMPLARY, CONSEQUENTIAL, SPECIAL OR OTHER DAMAGES, WHETHER ARISING IN CONTRACT OR IN TORT, BY VIRTUE OF THE WARRANTY OR ANY PERFORMANCE OR BREACH BY INTEGRA, ITS ASSIGNEES OR SERVICE AGENTS HEREUNDER OR PURSUANT HERETO.
- 5.2. Customer agrees that, notwithstanding the technical assistance provided pursuant to the Warranty by Integra or its representatives, Customer shall be fully and solely responsible for all treatments performed or attempted with the Equipment. INTEGRA MAKES NO REPRESENTATION OR WARRANTY AS TO THE EFFICACY OF THE EQUIPMENT OR OF THE TECHNICAL ASSISTANCE TO BE RENDERED BY INTEGRA, ITS ASSIGNEES OR SERVICE AGENTS, FOR PURPOSES OF THE PARTICULAR TREATMENT THAT CUSTOMER INTENDS TO PERFORM FOR THIRD PARTIES. Moreover, Integra disclaims any liability with respect to the efficacy of the Equipment or of said technical assistance or with respect to any claims by third parties related to any treatment performed by Customer.
- 5.3. THIS INTEGRA LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART OR THE PART OF ITS DISTRIBUTORS, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.  
  
INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.
- 5.4. IN NO EVENT SHALL INTEGRA AUTHORIZED DISTRIBUTORS BE LIABLE TOWARDS CUSTOMER FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA authorized distributors shall not be responsible towards Customer for, any loss, arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS INTEGRA DISTRIBUTOR LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES TOWARDS CUSTOMER, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES TOWARDS CUSTOMER ON INTEGRA AUTHORIZED DISTRIBUTOR'S PART.  
  
INTEGRA AUTHORIZED DISTRIBUTORS DISCLAIM ALL OTHER WARRANTIES TOWARDS CUSTOMER, EXPRESS OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS OR OTHER THIRD PARTIES.
- 5.5. Force Majeure. Notwithstanding anything to the contrary herein contained, if the performance of the Warranty by Integra, Integra authorized distributors, or Customer or any obligation of Integra, Integra authorized distributors, or Customer hereunder is prevented, restricted or interfered with by reason of fire, explosion, act of God, labor disputes or accidents affecting performance under the Warranty, or war, mobilization, civil commotions, blockade or embargo, or any future law, regulation, ordinance or requirement of any government or regulatory agency or any other act, whatsoever similar to those above enumerated, or any other circumstance being beyond the reasonable control of Integra, Integra authorized distributors, or Customer, then and in that event Integra, Integra authorized distributors, or Customer, as the case may be, shall promptly notify the other party hereto of the difficulties resulting therefrom, and any of the foregoing events shall excuse any performance required under the Warranty.

## cusa<sup>®</sup>excel<sup>+</sup>

### Ultrasonic Tissue Ablation System

The new CUSA EXcel<sup>®</sup>+ system builds upon the market-leading features of the CUSA EXcel<sup>®</sup> with the addition of several performance enhancing elements. The new CUSA EXcel+ system supports a broad selection of handpieces and surgical tips, allowing the surgeon to select the most appropriate combination based on the surgical procedure. The user-friendly console, color coded tubing and tubing paths enable easy system set-up. The CUSA EXcel+ system offers a simple user interface, the widest variety of handpieces and tip combinations and advanced features that make it the most powerful ultrasonic tissue ablation system available.

## Integra Limited Warranty

INTEGRA LIFESCIENCES CORPORATION ("INTEGRA") warrants to the original purchaser only that each new INTEGRA product is free from manufacturing defects in material and workmanship under normal use and service for a period of one (1) year (except as otherwise expressly provided as to accessory items) from the date of delivery by INTEGRA to the first purchaser, but in no event beyond the expiration date stated on any product labeling.

- Surgical instruments are guaranteed to be free from defects in material and workmanship when maintained and cleaned properly and used normally for their intended purpose.
- Any covered product that is placed by INTEGRA under a lease, rental or installment purchase agreement and that requires repair service during the term of such placement agreement shall be repaired in accordance with the terms of such agreement.

If any covered defect occurs during the warranty period or term of such placement agreement, the purchaser should communicate directly with INTEGRA's home office. If purchaser seeks to invoke the terms of this warranty, the product must be returned to INTEGRA at its home office. The defective product should be returned promptly, properly packaged and postage prepaid. Loss or damage in return shipment to INTEGRA shall be at CUSTOMER's risk. INTEGRA's sole responsibility under this warranty shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements.

IN NO EVENT SHALL INTEGRA BE LIABLE FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA shall not be responsible for, any loss arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as, in INTEGRA's judgment, to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.

INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTY ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, USAGE OR TRADE OR OTHERWISE, OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.

## Integra NPH™ Low Flow Valve

### Advantages Over Programmable Valves

The Integra NPH™ Low Flow Valve delivers position-independent performance, without the need for programming or frequent adjustments. The Integra NPH Low Flow valve offers safety advantages over programmable valves, which can readjust themselves and alter flow rates in the presence of magnetic fields, including diagnostic MRI.

The Integra NPH Low Flow Valve is a variable resistance valve that maintains drainage at a constant rate, between 8 and 17 ml/hr, within the physiological range of ICP. This valve should be used for patients that require a lower drainage rate.

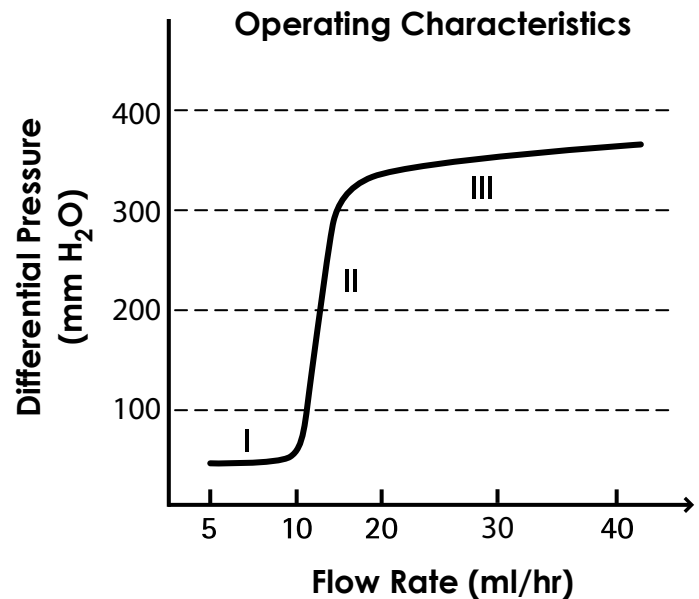

**Stage I: 30-120 mm H<sub>2</sub>O  
Differential Pressure (DP) valve.**  
Functions efficiently at low pressure to minimize under-drainage complications.

**Stage II: 120-300 mm H<sub>2</sub>O  
Flow Regulating valve.**  
Maintains a close balance between CSF flow and production rate.

**Stage III: Above 300 mm H<sub>2</sub>O  
Safety valve.**  
Immediately restores normal ICP during unexpected pressure elevation. Rarely needed.

Flow rate is regulated between 8-17ml/hr in Stage II.

## Integra NPH™ Low Flow Valve, Three Piece System

- Valve with integral polysulfone connectors
- 110cm open-ended, barium striped peritoneal catheter (F7)
- Right angle guide
- Straight polypropylene connector
- Luer connector
- Ventricular introducing rod

### Catalog No.

With Reservoir	Without Reservoir	Includes
----------------	-------------------	----------

<b>909502</b>	<b>909503</b>	15cm full barium ventricular catheter with depth markers
<b>90S502</b>		15cm Accuracy™ catheter (Barium-striped with numbered depth markers)

## Integra NPH™ Low Flow Valve, Two Piece System

- Valve with integral polysulfone connector
- Integral 110cm open-ended, barium striped peritoneal catheter (F7)
- Right angle guide
- Straight polypropylene connector
- Luer connector

### Catalog No.

With Reservoir	Without Reservoir	Includes
----------------	-------------------	----------

<b>909512</b>	<b>909513</b>	15cm, full barium ventricular catheter with depth markers, ventricular introducing rod
<b>90S512</b>		15cm, full barium Accuracy™ catheter (Barium-striped with numbered depth markers), ventricular introducing rod
<b>909514</b>	<b>909515</b>	15cm, full barium ventricular catheter with ventricular introducing rod and 65cm tunneler
<b>909507</b>	<b>909508</b>	Malleable 65cm tunneler, (ventricular catheter NOT included)
<b>909507S</b>	<b>909508S</b>	Ventricular catheter and tunneler NOT included

## Integra NPH™ Low Flow Valve, One Piece System

- Valve unit
- Integral 110cm open-ended, barium-striped peritoneal catheter (F7)
- Right angle guide
- Straight polypropylene connector
- Luer connector
- Ventricular catheter introducer

### Catalog No.

With Reservoir	Without Reservoir	Includes

9MD102B	N/A	15cm Accuracy™ catheter, (barium-striped numbered depth markers), ventricular introducing rod
---------	-----	---

991002	N/A	Right angle guide (box of 5, sterile)
--------	-----	---------------------------------------

## OSV II® Valve Systems

Introduced in 1987, the Orbis-Sigma® Valve was the first valve to manage hydrocephalus through flow-regulation technology rather than conventional differential-pressure regulation. The valve operates utilizing a unique, 3-stage, variable resistance mechanism that regulates the flow rate of CSF through the valve (Stage II) at a rate close to that of CSF secretion, therefore minimizing the risks of under or overdrainage. The same clinically-proven mechanism is used in the improved design of the OSV II® Valve System.

**Stage I**  
**Differential Pressure (DP) valve.**  
OSV II® functions as a low pressure DP valve to prevent underdrainage.

**Stage II**  
**Flow-Regulating Valve: Anti-Siphoning Stage**  
OSV II® functions as a flow regulator to maintain flow within physiological limits despite increases in differential pressure potentially caused by the siphoning effect.

**Stage III**  
**Safety valve.**  
OSV II® functions as a safety valve to immediately restore normal ICP, should ICP elevate abruptly over normal values.

### Operating Characteristics

Flow rate is regulated between 18-30ml/hr in Stage II, matching the normal CSF production rate.

## OSV II®, Three Piece System

- Valve with integral polysulfone connectors
- Integral 110cm open-ended barium-striped peritoneal catheter (F7)
- Right angle guide
- Straight polypropylene connector
- Luer connector
- Ventricular introducing rod

### Catalog No.

With Reservoir	Without Reservoir	Includes
<b>909702</b>	<b>909703</b>	15cm full barium ventricular catheter with depth markers
<b>90S702</b>		15cm Accuracy™ catheter (barium-striped with numbered depth markers,)

## OSV II®, Two Piece System

- Valve with integral polysulfone connector
- Integral 110cm open-ended barium-striped peritoneal catheter (F7)
- Straight polypropylene connector
- Luer connector

### Catalog No.

With Reservoir	Without Reservoir	Includes
<b>909712</b>	<b>909713</b>	15cm full barium ventricular catheter with depth markers (F8), introducing rod, and right angle guide
<b>909714</b>		15cm full barium ventricular catheter with depth markers, introducing rod, right angle guide and malleable tunneler (65cm)
<b>909707</b>	<b>909708</b>	Malleable tunneler (65cm) No ventricular catheter
<b>909707S</b>	<b>909708S</b>	No ventricular catheter, no tunneler
<b>90S712</b>		15cm Accuracy™ catheter (barium-striped catheter with numbered depth markers)

## OSV II®, One Piece System

- Integral straight full barium ventricular catheter (F8)
- Integral 110cm open-ended, barium-striped peritoneal catheter (F7)
- Ventricular catheter introducer
- Right angle guide
- Straight polypropylene connector
- Luer connector

### Catalog No.

With Reservoir	Without Reservoir	Includes
909718	909719	Integral Ventricular catheter 7cm
909706	909705	Integral Ventricular catheter 9cm
909704		Integral Ventricular catheter 13cm

## OSV II®, Two Piece Burr Hole System

- With integral 110cm open-ended, barium-striped peritoneal catheter (F7)
- Straight polypropylene connector
- Integral 6.4mm burr hole cap
- Regular (2.5mm) and shallow (0.8mm) polypropylene burr hole reservoirs
- Luer connector
- Ventricular introducing rod

### Catalog No.

With Reservoir	Without Reservoir	Includes
909721	909720	15cm full barium ventricular catheter (F8)
90S7201		15cm Accuracy™ ventricular catheter (barium-striped with numbered length markers)

## OSV II®, Valve Individual Units and Components

Catalog No.	Reservoir	Includes
909700	Yes	Integral polysulfone connectors, luer lock, priming tubing
909701	No	Integral polysulfone connectors, luer lock, priming tubing
909700P	Yes	Integral polysulfone connectors, luer lock, priming tubing
9MZ110N	N/A	110cm open-ended barium-striped peritoneal catheter (F7)
9MD102A	N/A	15cm full barium ventricular catheter (F8)
9MD102B	N/A	15cm Accuracy™ catheter, (barium-striped with numbered depth markers, F8)

# OSV•II<sup>low pro™</sup>

## OSV II Low Pro™, Three Piece Shunt System

- Valve with integral polysulfone connectors
- 110cm open-ended, barium-striped drainage catheter, (F7)
- Straight polypropylene connector
- Luer connector
- Ventricular introducing rod
- Right angle guide

Catalog No.

909702P

Includes

15cm full barium ventricular catheter (with depth markers, F8)

## OSV II Low Pro™, Two Piece Shunt System

- Valve with integral polysulfone connectors
- 110cm open-ended, barium-striped drainage catheter, (F7)
- Straight polypropylene connector
- Luer connector
- Right angle guide
- Ventricular catheter introducer

Catalog No.

909712P

Includes

15cm full barium ventricular catheter (with depth markers, F8)

## OSV II Low Pro™, Valve Only

Catalog No.

909700P

Includes

Integral polysulfone connectors, luer connector, priming tubing

## Equi-Flow™ Valve

The Equi-Flow™ valve is an advanced valve system\* designed to maintain physiological CSF pressure independent of patient orientation. Incorporating a normally open configuration Siphon Limiting Device (SLD) that closes in response to a negative hydrostatic pressure, this patented valve design limits reduction of IVP caused by siphoning in the distal catheter. The Equi-Flow™ valve has an injectable central reservoir, as well as proximal and distal occluders. The valve components do not interfere with CT scans or MRI imaging. The Equi-Flow™ valve is available in two sizes and four pressure designations to accommodate the requirements of different patients.

## Equi-Flow™ Valve, Regular

Catalog No.	Performance Level	Description
SLRLL	0.5	Very Low
SLRL	1.0	Low
SLRLM	1.5	Medium
SLRM	2.0	High

## Equi-Flow™ Valve, Small

Catalog No.	Performance Level	Description
SLSLL	0.5	Very Low
SLSL	1.0	Low
SLSLM	1.5	Medium
SLSM	2.0	High

\*U.S. Patent No. 5,304,114

## Equi-Flow™ Shunt System, Regular

### Includes:

- Regular Equi-Flow valve with integral polypropylene connectors
- Integral 91 cm, barium-striped peritoneal catheter, open ended with slits
- 15cm ventricular catheter with introducing rod and right angle guide

Catalog No.	Performance Level	Description
<b>SLRKLL</b>	0.5	Very Low
<b>SLRKLL</b>	1.0	Low
<b>SLRKLM</b>	1.5	Medium
<b>SLRKM</b>	2.0	High

## Equi-Flow™ Shunt System, Small

### Includes:

- Small Equi-Flow valve with integral polypropylene connector
- Integral 91 cm, barium-striped peritoneal catheter, open ended with slits
- 15cm ventricular catheter with introducing rod and right angle guide

Catalog No.	Performance Level	Description
<b>SLSKLL</b>	0.5	Very Low
<b>SLSKLL</b>	1.0	Low
<b>SLSKLM</b>	1.5	Medium
<b>SLSKM</b>	2.0	High

## Equi-Flow™ Burr Hole Shunt System

### Includes:

- Equi-Flow valve with integral polypropylene connector
- Integral 91cm, barium-striped peritoneal catheter, open ended with slits
- 15cm ventricular catheter with introducing rod and right angle guide
- Integral 6.4mm burr hole reservoir with shallow polypropylene base

### Regular Valve

Catalog No.	Performance Level	Description
15182	0.5	Very Low
15180	1.0	Low
15185	1.5	Medium
15181	2.0	High

15545	0.5	Very Low
15546	1.0	Low
15548	1.5	Medium
15549	2.0	High

## Novus™ Valve

The pressure/flow performance of the Novus™ Valve is specifically designed to resemble the characteristics of normal, healthy, CSF physiology. Novus features an integral Anti-Siphon Device based on a normally-open design. This proven innovation minimizes gravity-induced overdrainage when a patient sits or stands, maintaining intraventricular pressure within the normal physiologic range.

In addition, the patented Novus horizontally-mounted T-valve mechanism allows a straighter flow path; the rigid plastic valve housing and polypropylene needle guard reduce the risk of improper needle placement when accessing the reservoir; and proximal and distal occluders permit selective flushing and patency testing. All Novus Valves include integral connectors to facilitate catheter connection, and are designed with no metal parts that can interfere with CT or MRI scans.

Novus is available in both Standard and Mini sizes. Because the normally-open configuration of our Anti-Siphon Device adds variable resistance to flow only as required by change in patient position, the flexibility to meet a variety of patient needs is obtained with two pressure ranges.

Valve mechanism

Note: The above curves describe typical in-vitro valve performance characteristics for each closing pressure range. Due to characteristics of silicone materials, some variation in pressure performance may occur which historically has not compromised effective control and treatment of hydrocephalus.

## Novus™ Valve, Standard

Each Novus™ Valve is packaged with a barium-impregnated silicone right-angle ventricular catheter guide.

### Catalog No. Pressure Range

<b>NL8509010</b>	Low
<b>NL8509020</b>	Medium

## Novus™ Shunt Two Piece System, Standard

### Includes:

- Standard Novus™ Valve with integral 120cm open-ended, barium striped peritoneal catheter
- 18cm standard Pudenz ventricular catheter with introducing rod (NL8501228)
- Barium-impregnated silicone right-angle ventricular catheter guide

### Catalog No. Pressure Range

<b>NL8509610</b>	Low
<b>NL8509620</b>	Medium

## Novus™ Valve, Mini

Each Novus™ Mini Valve is packaged with a barium-impregnated silicone right-angle ventricular catheter guide.

### Catalog No. Pressure Range

<b>NL8509011</b>	Low
<b>NL8509021</b>	Medium

## Novus™ Shunt Kit Two Piece System, Mini

### Includes:

- Mini Novus™ Valve with integral 90cm open-ended, barium striped peritoneal catheter
- 18cm small Pudenz ventricular catheter with introducing rod (NL8501504)
- Barium-impregnated silicone right-angle ventricular catheter guide

### Catalog No. Pressure Range

<b>NL8509311</b>	Low
<b>NL8509321</b>	Medium

## Contour-Flex™ Valve

The Contour-Flex™ family of valves uses a proven silicone membrane pressure control element, providing consistent pressure/flow characteristic and a reproducible closing pressure.

The Contour-Flex™ valve has proximal and distal occluders to facilitate two-way flushing. This valve has a flexible profile to conform to the curvature of the cranium and is cosmetically unobtrusive.

Based on the same design as our Equi-Flow™ valve, but without siphon limiting device.

Pressure / Flow Characteristics

	Low	Med	High
5ml/hr flow rate	1cm H <sub>2</sub> O	6cm H <sub>2</sub> O	12cm H <sub>2</sub> O
50ml/hr flow rate	7cm H <sub>2</sub> O	136cm H <sub>2</sub> O	206cm H <sub>2</sub> O

## LPV II™ Valve

The LPV II™ Valve, a low-profile diaphragm valve, incorporates a patented horizontal T-valve mechanism. This simple flow pattern helps to reduce occlusion rates, even in cases of abnormally high CSF protein. The rigid valve housing and polypropylene needle guard reduces the risk of accidental needle damage.

All LPV II™ valves include integral connectors to facilitate catheter connection, as well as an injectable domed reservoir. Occluders are located both proximal and distal to the valve mechanism, allowing for flushing and patency testing in both directions. LPV II™ valves are designed without ferromagnetic parts and will not interfere with CT and MRI scans. Radiopaque markings indicate flow direction and pressure range.

LPV II™ is available in both Standard and Mini sizes and three pressure ranges to accommodate a wide variety of patient requirements. The LPV II™ has the same proven design as the NOVUS™ valve, but without anti-siphon device.

## Flow Path of LPV II™

**Valve Performance Chart**

Note: The above curves describe typical in-vitro valve performance characteristics for each closing pressure range. Due to characteristics of silicone materials, some variation in pressure performance may occur which historically has not compromised effective control and treatment of hydrocephalus.

## Integra DP™ Valve System

Over 30 years of clinical experience have made the Integra DP™ valve a standard among differential pressure (DP) valves.

The original Ball-In-Cone and Spring mechanism is the basis of all our Integra DP™ Valve Systems.

The Integra DP™ Valve for hydrocephalus management has proven:

- Accurate pressure control
- Long term reliability
- Superior protein handling capacity, and resistance to obstruction.

Several color-coded pressure ranges are offered in standard and pediatric versions. A variety of system configurations are available, depending on physician preference.

Each valve system includes all the necessary components required for implantation. A serial number is engraved on the body of the valve.

## Integra DP™ Standard Valve System (Adult)

- Integra DP™ standard valve unit with integral reservoir
- Integral 110cm open-ended striped peritoneal catheter with slits (F7)
- Plastic subcutaneous tube passer
- Introducing rod
- Stainless steel right angle connector
- Stainless steel straight connector

### Includes:

- Finned ventricular catheter (15cm, F8)

Catalog No.	Color	Pressure Range
901112*	Blue	Very low*
901122	White	Low
901142	Yellow	Medium
901162	Brown	High
901182	Green	Very high

### Includes:

- Straight ventricular catheter (15cm, F8) with radiopaque length dots

Catalog No.	Color	Pressure Range
901125	White	Low
901145	Yellow	Medium
901165	Brown	High

## Integra DP™ Pediatric Valve System

- Integra DP™ Pediatric valve unit with integral reservoir
- Integral 110cm open-ended striped peritoneal catheter with slits (F7)
- Plastic subcutaneous tube passer
- Introducing rod
- Stainless steel right angle connector
- Stainless steel straight connector

### Includes:

- Finned ventricular catheter (15cm, F8)

Catalog No.	Color	Pressure Range
902012*	Blue	Very low*
902045	White	Low
902080	Yellow	Medium
902125	Brown	High
902165	Green	Very high

### Includes:

- Straight ventricular catheter (15cm, F8) with radiopaque length dots

Catalog No.	Color	Pressure Range
902545	White	Low
902580	Yellow	Medium
902525	Brown	High

\*Recommended for post-operative drainage of hygromas and other extraventricular conditions.

## Integra DP™ Burr Hole Shunt System

- Integra DP™ valve unit with integral burr hole cap
- Integral 110cm open-ended, striped peritoneal catheter with slits (F7)
- Straight ventricular catheter (15cm, F8) with radiopaque length dots
- Introducing rod
- Stainless steel straight connector

### Integra DP™ Standard Burr Hole System

- Includes 6.4mm stainless steel burr hole reservoir (2.5mm depth)

Catalog No.	Color	Pressure Range
907122	White	Low
907142	Yellow	Medium
907162	Brown	High

### Integra DP™ Pediatric Burr Hole System

- Includes 6.4mm stainless steel burr hole reservoir (0.8mm depth)

Catalog No.	Color	Pressure Range
908122	White	Low
908142	Yellow	Medium
908162	Brown	High

## Integra DP™ Valve Unit

- Integra DP™ valve unit
- Integral 110cm open-ended, striped catheter with slits (F7)
- Two straight stainless steel connectors

### Integra DP™ Standard Valve Units

Catalog No.	Color	Pressure Range
901113*	Blue	Very low*
901123	White	Low
901143	Yellow	Medium
901163	Brown	High
901183	Green	Very high

### Integra DP™ Pediatric Valve Units

Catalog No.	Color	Pressure Range
902123	White	Low
902143	Yellow	Medium
902163	Brown	High

\*Recommended for post-operative drainage of hygromas and other extraventricular conditions.

## OMNISHUNT™ Valve Systems

OMNISHUNT™ Valve Systems provide low profile designs suitable for use in pediatric and neonate hydrocephalus patients. The single module, ball-in-cone valve mechanism provides pressure control, stability, and excellent flow/pressure performance. The OMNISHUNT has been designed for easy implantation, reducing shunt insertion time and skin erosion complications. OMNISHUNT has the same pressure ranges and operating pressure as Integra DP™.

**See Integra DP for flow versus pressure chart.**

## OMNISHUNT™ One Piece Valve Systems

- One-piece system with integral ventricular catheter, reservoir, single valve module, and 110cm open-ended, striped peritoneal catheter with slits (F7)
- Right angle guide
- Ventricular catheter introducer
- Straight polypropylene connector

### Includes:

- Straight ventricular catheter (7cm, F8)

Catalog No.	Color	Pressure Range
908322	White	Low
908342	Yellow	Medium
908362	Brown	High

### Includes:

- Straight ventricular catheter (9cm, F8) with radiopaque length dots

Catalog No.	Color	Pressure Range
908324	White	Low
908344	Yellow	Medium
908364	Brown	High

## OMNISHUNT™ Burr Hole Valve Systems

### Includes:

- Single valve module with integral burr hole reservoir cap and integral 110cm open-ended, striped peritoneal catheter with slits (F7)
- Introducing rod
- Stainless steel, 6.4mm burr hole reservoir, 0.8mm depth
- Straight ventricular catheter (15cm, F8) with radiopaque length dots
- Luer connector

Catalog No.	Color	Pressure Range

908242	Yellow	Medium
908262	Brown	High

## One-Piece Shunt

The One-Piece Shunt incorporates quality features and components in a low-cost and easy-to-use kit. Tantalum markings and barium impregnated silicone elastomer provide full radiopacity; a double-dome reservoir with integral needle guard allows simple proximal as well as distal flushing, and a specially designed ventricular catheter introducer is included in each kit.

### Includes:

- One-Piece Shunt with double-dome reservoir in lengths as indicated in chart below
- Ventricular catheter introducer (NL8502005)
- Silicone right-angle ventricular catheter guide

Dot Code	Pressure Rating	Differential Pressure Range (mm of H <sub>2</sub> O)

**Note:** Above items require minimum order quantity and production lead time. Please contact your Integra NeuroSpecialist for further information.

## UltraVS™ Cylindrical Valve

The simple cylindrical shape of UltraVS™ lowers the profile of the valve system in order to reduce the risk of skin erosion. At only 13mm long and 3.8mm wide, the UltraVS Neonate is the smallest valve manufactured, and the Integra valve most appropriate for neonatal patients.

UltraVS incorporates a miter valve mechanism, a design that naturally opens more slowly in response to hydrostatic pressure than a diaphragm type valve. The direct flow path of the UltraVS easily resists occlusion even in cases of excessively high protein CSF.

All UltraVS Valve units incorporate integral connectors to facilitate catheter connection. The option of an integral injectable Rickham-style reservoir allows CSF sampling.

UltraVS Valves are available in two sizes, and each size is available in three pressure ranges. The availability of several different system configurations gives UltraVS the ultimate in system flexibility.

**NL8501125** High

## Pudenz Valve

Pudenz Flushing Valves are available exclusively through Integra.

Reliability of performance and the widest variety of sizes and pressure ranges available have made Pudenz Valves the burr-hole valve of choice for over three decades. The addition of integral connectors to facilitate catheter attachment and the availability of an integral Anti-Siphon Device provide increased flexibility in meeting a variety of patient requirements.

All Pudenz Flushing Valves feature an injectable reservoir for CSF sampling, distal flushing, and distal patency testing. A one-way diaphragm-type valve and radiopaque pressure range indicators are incorporated in all Pudenz Valves.

**Valve Performance Chart**

	Low Pressure	Medium Pressure	High Pressure
Dot Code	•	• •	• • •
Closing Pressure	mm H <sub>2</sub> O	mm H <sub>2</sub> O	mm H <sub>2</sub> O
Range	5-50	51-110	111-180
Flow/Pressure			
Range @ 5ml/hr	5mm H <sub>2</sub> O	50mm H <sub>2</sub> O	110mm H <sub>2</sub> O
@50ml/hr	75mmH <sub>2</sub> O	140mm H <sub>2</sub> O	220mm H <sub>2</sub> O

Note: Values shown in the flow/pressure-range chart are the low point of the established 5-ml/hr range and the high point of the 50 ml/hr range.

**Note:**

Shaded areas on the graph describe typical in-vitro valve performance as tested at the time of manufacture. Due to characteristics of silicone materials, some variation in pressure performance may occur which historically has not compromised effective control and treatment of hydrocephalus.

### Flushing Procedure for Pudenz CSF Valve

Diagrams are shown here for illustration purposes only. Always refer to the relevant **Instructions for Use** for complete clinical instructions.

## Mishler™ Dual-Chamber Valve

All Mishler™ Dual-Chamber Flushing Valves feature integral connectors to facilitate catheter connection, and are available in three pressure ranges.

The reservoir dome is divided by a center vertical chamber divider (see diagram below) that incorporates a miter valve mechanism. This design permits injections and/or flushing, both proximally and distally, simultaneously or separately.

Dot Code	Pressure Rating	Closing Pressure Range (mm of H <sub>2</sub> O)
•	Low	15 - 54
• •	Medium	55 - 94
• • •	High	95 - 50

### Flat-Bottom Configuration

Diagrams are shown here for illustration purposes only. Always refer to the relevant **Instructions for Use** for complete clinical instructions.

Percutaneous injection to the proximal (ventricular side) reservoir chamber, while occluding the distal outlet with finger pressure.

Percutaneous injection to the distal chamber. The miter valve's one-way flow control allows injected material to flow in the distal direction only.

Finger pressure on the center section of the dome flushes the shunt proximally and distally.

## Multi-Purpose Valve

All Multi-Purpose Valves feature the exclusive On-Off Device. This integral on-off control can be utilized to monitor for shunt dependency, can assist in controlling ventricle decompression, and allows easy proximal flushing and patency testing.

An integral proximal occluder allows easy opening of on-off mechanism and facilitates distal flushing, while the in-line reservoir assists with both proximal and distal flushing and provides access for CSF sampling and fluid/medication injection.

This easy-to-use flat bottom miter valve device is available in three pressure ranges, with or without an integral Anti-Siphon Device, to meet a wide range of patient needs.

Dot Code	Pressure Rating	Closing Pressure Range (mm of H <sub>2</sub> O)

## Spetzler™ Lumbar-Peritoneal Shunt Kit

Spetzler™ is the most prominent name in lumbar-peritoneal shunting products, available exclusively from Integra. The original lumbar-peritoneal shunt, designed for the treatment of communicating hydrocephalus in adults, can be inserted without a laminectomy. Pressure control is achieved through a combination of the double slit valve at the peritoneal end and the small inner diameter catheter.

Each Spetzler™ Lumbar-Peritoneal Shunt is packaged as a complete kit. Optional in-line valves and reservoirs are also available.

### • Spetzler™ Lumbar-Peritoneal Catheter Pressure Ranges

Catheter alone, as packaged 50-400mm H<sub>2</sub>O

*Catheter, reservoirs, and inline valves sold separately.*

Catalog No.	Catheter Length	Tuohy Needle Length
NL8507210	80cm	3.5" (990003)
NL97105S01	105cm	6" (NL82059S03)

### Includes:

- One (1) lumbar-peritoneal catheter
- One (1) metal connector
- One (1) 14 gauge Tuohy needle
- Three (3) suture collars

## Spetzler™ Lumbar-Peritoneal CSF Reservoir

### Includes:

- Two (2) metal connectors (NL75121S06)

### Catalog No.      Size

NL8507440      Small

NL8507460      Large

## Spetzler™ Lumbar-Peritoneal In-Line Valves

### Includes:

- Integral metal connectors

### Catalog No.      Pressure Range

NL8507420      Low

NL8507421      Medium

NL8507422      High

### Valve Performance Chart

	Low Pressure	Medium Pressure	High Pressure
<b>Dot Code</b>	•	••	•••
<b>Differential Pressure Range @ 9 ml/hr.</b>	mm H <sub>2</sub> O 15-54	mm H <sub>2</sub> O 55-94	mm H <sub>2</sub> O 95-150
<b>Flow/Pressure-Range</b>			
@ 5ml/hr.	15mm H <sub>2</sub> O	50mm H <sub>2</sub> O	85mm H <sub>2</sub> O
@ 50ml/hr.	115mm H <sub>2</sub> O	200mm H <sub>2</sub> O	310mm H <sub>2</sub> O

**Note:** Valves shown in the flow/pressure range chart are the low point of the established 5ml/hr range and the high point of the 50ml/hr range.

**Note:** Addition of a large or small reservoir to the one-piece shunt system will add a minimum pressure of 50mm of H<sub>2</sub>O at a flow rate of 23ml/hr.

Trimming the shunt length by 20cm will result in an overall decrease in system pressure of approximately 15mm H<sub>2</sub>O at a flow rate of 23ml/hr.

## Horizontal-Vertical (H-V) Lumbar Valve System

Each Horizontal-Vertical (H-V) lumbar valve system adjusts for changes in posture to maintain pressure at appropriate levels in the standing and recumbent positions.

When the valve unit is horizontal, the spring-actuated, ball-in-cone inlet valve alone controls the lower pressure limit. When the valve unit is vertical, the gravity-actuated, ball-in-cone outlet valve combines with the inlet valve to control the higher pressure. Each valve unit is color-coded according to its combination of horizontal and vertical closing pressures for easy identification.

### Cross Section of Valve Unit

- 1) Suture holes
- 2) Inlet valve (controls pressure in the horizontal position)
- 3) Outlet valve (controls pressure in the vertical position)
- 4) Color-coded band

## Selection of Pressure Ranges

The horizontal pressure range should generally be selected according to the extent of the patient's ventricular enlargement. If ventricular enlargement is extreme, valves with lower horizontal pressure ranges are usually selected. If the degree of ventricular enlargement is minor, higher horizontal pressures are generally applied.

The vertical valve pressure should be selected on the basis of the patient's height from the base of the spine to the head (see *table on previous page*).

## Horizontal-Vertical (H-V) Lumbar Valve System

### Includes:

- 2 side-by-side, ball-in-cone valves in a silicone elastomer housing
- 46cm closed tip lumbar catheter (F5)
- Suturable tubing clamp (F5)
- Stainless steel straight connector
- Stainless steel stepdown connector (F8/F5)
- 71cm open-ended, striped peritoneal catheter(F7)
- Reservoir
- Guidewire in dispenser
- 14G Tuohy needle (90mm)
- Luer Connector

- For patients with minor ventricular enlargement

Catalog No.	Closing Pressure (mm H <sub>2</sub> O)		Color code	Suggested Application
	Horizontal	Vertical

903335A	85-125	265-365	Yellow	Tall children, adults
903345A	85-125	325-445	Green	Tall adults

- For patients with extreme ventricular enlargement

Catalog No.	Closing Pressure (mm H <sub>2</sub> O)		Color code	Suggested Application
	Horizontal	Vertical		
903320A	50-80	170-240	Red	Small children
903330A	50-80	230-320	White	Tall children, adults
903340A	50-80	290-400	Brown	Tall adults

### Note on use in MRI:

A sample set of H-V Lumbar valves was pressure tested at different flow rates (60, 50, 30, 20, 10 & 5 ml/h) before being subjected to two MRI sequences\*. The products were tested again after MRI exposure. Additional H-V Lumbar valves were subjected to an

MRI magnetic field of 1.5 Tesla. The results of the tests indicated that exposure to MRI does not affect the pressure settings of the valves. No significant forces or temperature changes were noticed during MRI exposure.

\* T1 sequence, 2'05'', 800 ms repetition time, 12 ms echo, 1.5 Tesla field.  
T2 sequence, 2'34'', 3500 ms repetition time, 120 ms echo, 1.5 Tesla field.

## Edwards-Barbaro Syringo-Peritoneal Shunt Kit

Edwards-Barbaro is a T-tube catheter designed to provide continuous drainage of fluid from within a spinal cord cyst (syrinx) to the peritoneum. The small T-tube diameter (approximately 5FR) minimizes the size of the myelotomy, and the "T" shape allows drainage from above and below the myelotomy site which minimizes the risk of kinking and migration. Multiple perforations reduce the chance of catheter occlusion at the spinal cord.

## Edwards-Barbaro Syringo-Peritoneal Shunt Kit

Catalog No.

NL80076S01

Includes:

- One (1) 25cm x 3.5cm 5FR T-tube
- One (1) 90cm peritoneal reflux control catheter
- One (1) step down connector
- One (1) Foltz CSF Reservoir (NL8501195)

Foltz CSF Reservoir

Stepdown Connector

T-tube

Peritoneal Reflux Control Catheter

## Gravity Compensating Accessory

The Gravity Compensating Accessory (GCA) is designed to be mounted in line with the Integra DP™ valve or any other differential pressure valve system in order to counteract the siphoning effect of hydrostatic pressure when the patient is in the upright position.

The GCA can be used in all cases where an anti-siphon device is deemed necessary. Its operating characteristics are not dependent on its location along the shunt distal tubing and they are not sensitive to external pressure.

## Cross Section Of The Gravity Compensating Accessory

Catalog No.	Additional Resistance to flow at 5ml/h	(mm H <sub>2</sub> O) at 50ml/h	Color	Range	Suggested Application
903430	140-170	170-200	White	Low	Children
903435	200-250	230-280	Yellow	Medium	Adults
903440	260-320	290-350	Brown	High	Tall Adults

### Note on use in MRI:

The GCA is an integral component of the H-V Lumbar Valve System. A sample set of H-V Lumbar valves was pressure tested at different flow rates (60, 50, 30, 20, 10 & 5 ml/h) before being subjected to two MRI sequences\*. The products were tested again after MRI exposure.

Additional H-V Lumbar valves were subjected to an MRI magnetic field of 1.5 Tesla. The results of the tests indicated that exposure to MRI does not affect the pressure settings of the valves. No significant forces or temperature changes were noticed during MRI exposure.

\* T1 sequence, 2'05'', 800 ms repetition time, 12 ms echo, 1.5 Tesla field.

T2 sequence, 2'34'', 3500 ms repetition time, 120 ms echo, 1.5 Tesla field.

## Anti-Siphon Device

The original physiologically designed siphon control mechanism, the Anti-Siphon Device, is normally open and reacts only as needed to changes in hydrostatic pressure. When a patient sits or stands, the device resists the hydraulic siphoning common to differential pressure CSF-control valves, preventing over-drainage and keeping the patient's intra-ventricular pressure within the physiological normal range. The Anti-Siphon Device may be connected in series with any flushing reservoir or proximal control valve using the connectors packaged with the device.

The Anti-Siphon Device is an integral component of many Integra valve systems.

### Catalog No.

**NL8500200**

### Includes:

- Two (2) Pudenz Straight Connectors (NL8501900)
- One (1) Flat bottom ASD

ASD minimizes siphon effect by closing as the hydrostatic pressure changes relative to patient position (standing, sitting or supine).

## Anti-Siphon Device

## Integra™ Reservoir

Designed as a closed ventricular access system, the Integra Reservoir (formerly Ommaya) facilitates CSF withdrawal as well as delivery of radioisotopes and chemotherapeutic agents. Several models are offered, providing the flexibility to accommodate many different treatment protocols. The reservoir may also be converted to or added in-line to an existing shunt system.

Each Standard Integra™ CSF Reservoir is packaged with a small Pudenz ventricular catheter (NL8501504, not shown).

## Standard Integra Reservoir

### Includes:

- Small Pudenz ventricular catheter (NL8501504, not shown)

Catalog No.	Size	Style	Flushing Volume

## Pudenz Pressure Rated Catheters

Catalog No.	Length	Style	Pressure Range
NL8501380	90cm	Barium Stripe	Low
NL8501381	90cm	Barium Stripe	Medium
NL8501382	90cm	Barium Stripe	High

Dot Code	Pressure Rating	Differential Pressure Range (mm of H <sub>2</sub> O)
•	Low	15 - 54
• •	Medium	55 - 94
• • •	High	95 - 150

## Y-lumbar Catheter

- Radiopaque silicone elastomer catheter (720mm, F5)
- 2 open-ended, proximal branches (75mm, F5) with 3 series of 10 holes
- Open distal outlet
- Suturable tubing clamp for F5 catheters
- Radiopaque polypropylene F8/F5 stepdown connector

### Catalog No.

951103

## Atrial (Cardiac) Catheters

All atrial catheters feature conical tips to ease insertion. Standard and infant models are available in three pressure ranges for distal control, eliminating the need for a proximal valve. The infant model offers a reduced-diameter distal end to aid penetration of small vessels without trauma.

Dot Code	Pressure Rating	Differential Pressure Range (mm of H <sub>2</sub> O)
•	Low	15 - 54
• •	Medium	55 - 94
• • •	High	95 - 150

## Catheter Passers and Introducers

Catalog No.	Includes:
<b>NL8502001</b>	Disposable Peritoneal Catheter Passer, 60cm (box of 6)
<b>NL8502002</b>	Disposable Peritoneal Catheter Passer, 36cm (box of 6), <i>not shown</i>
<b>NL8502005</b>	Ventricular Catheter Introducer for One-Piece Shunt
<b>RN8502070</b>	Peritoneal Catheter Passer, 38cm
<b>NL7801301</b>	Stylet for 18cm Ventricular Catheter packaged non-sterile
<b>990001</b>	Malleable shunt tunneler, 45cm: ID 3.5mm (box of 5)
<b>990010</b>	Malleable shunt tunneler, 65cm ID: 3.5mm (box of 5)

## Reusable Peritoneal Introducers

- Stainless steel
- Non sterile (multiple use)

Catalog No.	Length
901212	31cm
901218	46cm
901224	61cm
9MD270	70cm

---

## Replacement Peritoneal Introducer Sheaths

- Translucent polypropylene
- 5 sterile units per box (single use)

Catalog No.	Length
990012	31cm
901118	46cm
901124	61cm
9MD170	70cm

## Plastic Subcutaneous Tube Passer

- For F8 or 2.7mm OD, 15cm length tube
- Polypropylene
- Sterile

**Catalog No.**    **Includes:**

**9MD2101**    • Tube Passer for Pediatric Integra DP Valves

## Tuohy Needle

**Packaged Sterile**

**Catalog No.**    **Includes:**

**990003**    Tuohy Needle, 14G, 9cm, thin wall, with snap on wings

**NL82059S03**    Tuohy Needle, 14G, 15.2cm

## Shunt Accessories

Integra offers a variety of disposable accessories, including catheter connectors, guides, passers and introducers. All connectors and guides are packaged sterile.

## Catheter Connectors and Guides

Catalog No.	Includes:
<b>NL8501900</b>	Pudenz Straight Connector (Nylon)
<b>NL8501902</b>	Pudenz Right-Angle Connector (Nylon)
<b>NL8501908</b>	Pudenz Three-Way ("Y") Connector, (Silicone elastomer and Nylon)
<b>NL8501911</b>	Threaded Straight Connector (Nylon)
<b>NL8501913</b>	Threaded Right-Angle Connector (Nylon)
<b>NL8501919</b>	Double-Threaded Straight Connector (Nylon)
<b>NL86004S01</b>	Stepdown Connector (Stainless steel)
<b>NL83024S01</b>	Right-Angle Ventricular Catheter Guide (Silicone with barium sulfate)
<b>NL75121S06</b>	Metal Connector for Lumbar-Peritoneal Shunt
<b>NL97001S01</b>	Luer Connector (Polycarbonate)
<b>991002</b>	Right Angle Guide (5 per box) (Silicone with barium sulfate)
<b>999004</b>	Suturable Tubing Clamp for F7 catheters (5 per box) (Silicone with barium sulfate)
<b>999005</b>	Suturable Tubing Clamp for F5 catheters (5 per box) (Silicone with barium sulfate)
<b>999007</b>	Suturable Tubing Clamp for F8 catheters (5 per box) (Silicone with barium sulfate)

## NeuroBalloon™ Catheter

The NeuroBalloon™ Catheter is designed for dilation of pre-punctured cerebral membrane fenestrations such as Endoscopic Third Ventriculostomies (ETVs).

The unique double balloon assures quick, simple, and accurate positioning. The dilation of the membrane can be observed through the transparent silicone material of the NeuroBalloon's catheter, allowing maximum control. This accurate positioning is especially important during ETVs to avoid damage to critical structures such as the basilar artery.

### Catalog No. Includes:

**7CBD10**

- Polyurethane catheter with integral female luer lock connector, attached transparent silicone double balloon
- 1ml (1cc) syringe

# NeuroBalloon™ catheter

Black ink mark at waist of double balloon

Diameter when deflated allows compatibility with 4 French working channels (1.35mm)

Diameter of the waist after a pre-inflation with 1.0ml (1.0cc):

When inflated with 0.6ml (0.6cc): 3.5mm minimum

When inflated with 1.0ml (1.0cc): 6.0mm maximum

1ml syringe

# Ordering and Warranty Information

## Pricing:

Prices stated in specific written quotations are firm for thirty days from the date given, and are otherwise subject to change without prior notice. Pricing terms stated on written agreements are governed by such agreements.

## Minimum Order Requirements:

Minimum order requirement is \$100 (a \$10 handling charge will be added to any order under \$100). For partial case orders, contact the Customer Service Department for quotation.

## Shipments:

F.O.B. Integra NeuroSciences point of shipment within the continental United States. Shipping costs (including freight and insurance), shall be prepaid by Integra and invoiced to customers.

## Ordering Procedure:

A written purchase order on customer's form may be requested for purchases of Integra NeuroSciences products.

## Acceptance of Orders:

Orders are accepted upon approval by Integra in Plainsboro, New Jersey.

## Return Policy:

- Authorization, from customer service, must be obtained prior to returning product.
- Sterile product must be returned in unopened, undamaged cartons, packed to prevent damage.
- Non-sterile product must be returned in unused saleable condition in original package.
- Custom or special order products will not be accepted for credit.
- Credit will be issued for goods returned prior to ninety days from ship date with a 20% restocking charge. This assumes that the product returned is not damaged and can be verified to have not been used or opened.

## Integra Limited Warranty

INTEGRA LIFESCIENCES CORPORATION ("INTEGRA") warrants to the original purchaser only that each new INTEGRA product is free from manufacturing defects in material and workmanship under normal use and service for a period of one (1) year (except as otherwise expressly provided as to accessory items) from the date of delivery by INTEGRA to the first purchaser, but in no event beyond the expiration date stated on any product labeling.

- Surgical instruments are guaranteed to be free from defects in material and workmanship when maintained and cleaned properly and used normally for their intended purpose.
- Any covered product that is placed by INTEGRA under a lease, rental or installment purchase agreement and that requires repair service during the term of such placement agreement shall be repaired in accordance with the terms of such agreement.

If any covered defect occurs during the warranty period or term of such placement agreement, the purchaser should communicate directly with INTEGRA's home office. If purchaser seeks to invoke the terms of this warranty, the product must be returned to INTEGRA at its home office. The defective product should be returned promptly, properly packaged and postage prepaid. Loss or damage in return shipment to INTEGRA shall be at CUSTOMER's risk. INTEGRA's sole responsibility under this warranty shall be repair or replacement, at INTEGRA's sole discretion at INTEGRA's expense, subject to the terms of this warranty and applicable agreements.

IN NO EVENT SHALL INTEGRA BE LIABLE FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA PRODUCT. Further, this warranty shall not apply to, and INTEGRA shall not be responsible for, any loss arising in connection with the purchase or use of any INTEGRA product that has been repaired by anyone other than an authorized INTEGRA service representative or altered in any way so as, in INTEGRA's judgment, to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA. THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON INTEGRA'S PART, AND INTEGRA NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA'S PRODUCTS.

INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTY ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, USAGE OR TRADE OR OTHERWISE, OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.

## Cortical Strip Electrode with Cylindrical Connector

Integra Epilepsy™ cortical strip electrodes are extra thin and flexible to facilitate intracranial placement through a burr hole. The narrow cylindrical connector design simplifies tunneling, using a 14G tunneling needle, and enables quick and secure attachment to the patented connection system. They are available with implant grade stainless steel or platinum contacts. Contacts are dimpled for maximum contact with cortex.

## Depth Electrode Cylindrical Connector, 5mm Contact Length, 1cm Spacing

These are superior quality electrodes, fabricated from a single length of polyurethane tubing for strength and uniform smoothness. The narrow cylindrical connector design simplifies tunneling, using a 14G tunneling needle, and enables quick and secure attachment to the patented connection system. They are available with implant grade stainless steel or platinum contacts.

Each depth electrode is furnished with a specially-designed rigid stylet to facilitate stereotactic placement in the patient.

Epidural Peg Electrodes

Peg electrodes typically are positioned in a burr hole to enable extradural recording of brain activity. They have platinum contacts and are furnished in several lengths to accommodate various skull thicknesses. A 4.6mm twist drill is suitable for installation of peg electrodes in the patient.

Catalog No.	Length (L)

## Ojemann Cortical Stimulator

Designed in collaboration with Dr. George Ojemann at the University of Washington, the Ojemann Cortical Stimulator is the industry standard for cortical stimulation mapping procedures. This portable, constant current unit has simple, uncomplicated controls and current settings suitable for use in the awake or anesthetized patient. The Ojemann Cortical Stimulator is a compact, battery-powered unit and supplies up to 20 milliamps current (peak to peak).

## Pricing

Prices stated in specific written quotations are firm for thirty days from the date given, and are otherwise subject to change without prior notice. Pricing terms stated on written agreements are governed by such agreements.

## Minimum Order Requirements

Minimum order requirement is \$250 (a \$20 handling charge will be added to any order under \$250). For partial case orders, contact the Customer Service Department for a quotation.

## Ordering Procedure

A written purchase order on the customer's form may be requested for purchases of Integra LifeSciences products.

## Acceptance of Orders

Orders are accepted upon approval by Integra Customer Service.

## Return Policy

- Authorization from customer service must be obtained prior to returning product.
- Sterile product must be returned in unopened, undamaged cartons, packed to prevent damage.
- Non-sterile product must be returned in unused saleable condition in original package.
- Custom or special order products will not be accepted for credit.
- Credit will be issued for goods returned prior to ninety days from ship date with a 20% restocking charge. This assumes that the product returned is not damaged and can be verified to have not been used or opened.

## Integra Warranty for Radionics® CRW® Stereotactic System

### 1. Warranty

Integra NeuroSciences, Inc. ("Integra NeuroSciences") warrants to the original purchaser only that each new Integra NeuroSciences product is free from manufacturing defects in material and workmanship under normal use and service for a period of one year from the date of delivery by Integra NeuroSciences to the first purchaser, but in no event beyond the expiration date stated on any product labeling.

- Surgical instruments are guaranteed to be free from defects in material and workmanship when maintained and cleaned properly and used normally for their intended purpose.
- Any covered product that is placed by Integra NeuroSciences under a lease, rental or installment purchase agreement and that requires repair service during the term of such placement agreement shall be repaired in accordance with the terms of such agreement.

If any covered defect occurs during the warranty period or term of such placement agreement, the purchaser should communicate directly with Integra NeuroSciences' home office. If purchaser seeks to invoke the terms of this warranty, the product must be returned to Integra NeuroSciences at its home office. The defective product should be returned promptly, properly packaged and postage prepaid. Loss or damage in return shipment to Integra NeuroSciences shall be at Customer's risk. Integra NeuroSciences sole responsibility under this warranty shall be repair or replacement, at the sole discretion and expense of Integra NeuroSciences, subject to the terms of this warranty and applicable agreements.

IN NO EVENT SHALL INTEGRA NEUROSCIENCES BE LIABLE FOR ANY INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH THE ACQUISITION OR USE OF ANY INTEGRA NEUROSCIENCES PRODUCT. Further, this warranty shall not apply to, and Integra NeuroSciences shall not be responsible for, any loss arising in connection with the purchase or use of any Integra NeuroSciences product that has been repaired by anyone other than an authorized Integra NeuroSciences service representative or altered in any way so as, in Integra NeuroSciences judgment, to affect its stability or reliability, or which has been subject to misuse, negligence or accident, or which has been used otherwise than in accordance with the instructions furnished by INTEGRA NEUROSCIENCES. THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF INTEGRA NEUROSCIENCES, AND INTEGRA NEUROSCIENCES NEITHER ASSUMES NOR AUTHORIZES ANY REPRESENTATIVE OR OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH INTEGRA NEUROSCIENCES PRODUCTS.

INTEGRA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTY ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, USAGE OR TRADE OR OTHERWISE, OR APPLICATION OR WARRANTY OF QUALITY AS WELL AS ANY EXPRESS OR IMPLIED WARRANTY TO PATIENTS. No warranty or guarantee may be created by any act or statement nor may this Standard Warranty be modified in any way, except as a result of a writing signed by an officer of INTEGRA. These limitations on the creation or modification of this warranty may not be waived or modified orally or by any conduct.

## 2. Service, Repairs and Replacement

- 2.1. *Service and Repairs.* All service and repairs covered by this Warranty may be referred to hereinafter as "in-warranty repairs," and all service and repairs not covered by this Warranty may be referred to as "out-of-warranty repairs." Customer shall be responsible to pay Integra NeuroSciences' then-standard charges for any out-of-warranty repairs performed by Integra NeuroSciences. Integra NeuroSciences' sole obligation for Equipment defects and failures of performance shall be to make all necessary adjustments and repairs in accordance with this Warranty.
- 2.2. *Equipment Replacement.* The defective Equipment or part thereof that is replaced in accordance with the Warranty shall be the property of Integra NeuroSciences. Integra NeuroSciences reserves the right to fill spare parts requests using refurbished sub-assemblies provided that such sub-assemblies are functionally equivalent to new sub-assemblies and carry the same warranty as the replaced sub-assemblies.
- 2.3. *Notification.* In order to avail itself of its rights under the Warranty, Customer must immediately notify Integra NeuroSciences of any defects and provide Integra NeuroSciences every opportunity to inspect and remedy defects.

## 3. Repair Parts and Services

- 3.1. Included under the Warranty are the following services:
  - 3.1.1. *Modifications to Covered Equipment.* From time to time, at its sole discretion, Integra NeuroSciences may propose modifications to the covered Equipment and to the specifications for the Equipment ("Specifications"). Subject to Customer's approval and at its sole expense, the Customer may request Integra NeuroSciences to make such modifications to the covered Equipment and to the Specifications. Integra NeuroSciences shall make such modifications for the Customer, which modifications may include the installation of new parts in the Equipment, at a price equal to the then-current list price for such modifications, as such list price is established by Integra NeuroSciences in its sole discretion.

## 4. Quality Control

- 4.1. Customer shall maintain reasonable standards of quality control, operations, procedures, safety testing and inspection of Equipment to ensure that unnecessary service or maintenance is not required hereunder.
- 4.2. Customer shall provide a technical counterpart to Integra NeuroSciences' Service Agent for assistance in Integra NeuroSciences' telephonic diagnosis of the malfunction with the Equipment. Customer shall reasonably accept Integra NeuroSciences' determination whether a repair or service is an in-warranty repair or an out-of-warranty repair.

## 5. Limitation of Liability

- 5.1. THE WARRANTIES DESCRIBED IN SECTION 1 HEREOF ARE EXCLUSIVE AND ARE GIVEN AND ACCEPTED IN LIEU OF ALL OTHER WARRANTIES OF INTEGRA NEUROSCIENCES OR ITS SERVICE AGENTS WITH RESPECT TO THE QUALITY, PERFORMANCE AND OPERATION OF THE EQUIPMENT, WRITTEN OR ORAL, EXPRESSED OR IMPLIED, AND WHETHER OR NOT ATTRIBUTABLE TO SERVICE PERFORMED PURSUANT TO THE WARRANTY. ALL OTHER REPRESENTATIONS OR WARRANTIES OF INTEGRA NEUROSCIENCES OR ITS REPRESENTATIVES, EXPRESS OR IMPLIED, WITH RESPECT TO THE EQUIPMENT OR THE SERVICES, DIAGNOSES, ADVICE, ASSISTANCE OR PARTS TO BE TENDERED PURSUANT TO THE WARRANTY, INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY EXPRESSLY DISCLAIMED. IN NO EVENT SHALL INTEGRA NEUROSCIENCES, ITS AFFILIATES, ASSIGNEES OR SERVICE AGENTS BE LIABLE FOR LOSS OF USE, REVENUE OR PROFIT OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, EXEMPLARY, CONSEQUENTIAL, SPECIAL OR OTHER DAMAGES, WHETHER ARISING IN CONTRACT OR IN TORT, BY VIRTUE OF THE WARRANTY OR ANY PERFORMANCE OR BREACH BY INTEGRA NEUROSCIENCES, ITS AFFILIATES, ASSIGNEES OR SERVICE AGENTS HEREUNDER OR PURSUANT HERETO IN EXCESS OF THE AMOUNTS PAID BY CUSTOMER TO INTEGRA NEUROSCIENCES DURING THE WARRANTY PERIOD.
- 5.2. Customer agrees that, notwithstanding the technical assistance provided pursuant to the Warranty by Integra NeuroSciences or its representatives, Customer shall be fully responsible for all treatments performed or attempted with the Equipment. INTEGRA NEUROSCIENCES MAKES NO REPRESENTATION OR WARRANTY AS TO THE EFFICACY OF THE EQUIPMENT OR OF THE TECHNICAL ASSISTANCE TO BE RENDERED BY INTEGRA NEUROSCIENCES, ITS AFFILIATES, ASSIGNEES OR SERVICE AGENTS, FOR PURPOSES OF THE PARTICULAR TREATMENT THAT CUSTOMER UNDERTAKES TO PERFORM FOR THIRD PARTIES. Moreover, Customer shall not make any claim against Integra NeuroSciences or any of its affiliates, assignees or representatives with respect to the efficacy of the Equipment or of said technical assistance or with respect to any claims by third parties related to any treatment undertaken by Customer.
- 5.3. *Force Majeure.* Notwithstanding anything to the contrary herein contained, if the performance of the Warranty by Integra NeuroSciences or Customer or any obligation of Integra NeuroSciences or Customer hereunder is prevented, restricted or interfered with by reason of fire, explosion, act of God, labor disputes or accidents affecting performance under the Warranty, or war, mobilization, civil commotions, blockade or embargo, or any future law, regulation, ordinance or requirement of any government or regulatory agency or any other act, whatsoever similar to those above enumerated, or any other circumstance being beyond the reasonable control of Integra NeuroSciences or Customer, then and in that event Integra NeuroSciences or Customer, as the case may be, shall promptly notify the other party hereto of the resulting difficulties therefrom, and any of the foregoing events shall excuse any performance required under the Warranty.

The Radionics® CRW® (Cosman-Roberts-Wells)

stereotactic system and Radionics® advanced surgical planning software represent the ultimate in safety and accuracy for frame-based stereotaxy. Numerous features make the Radionics CRW ideal for surgical applications such as brain tumor biopsies and Deep Brain Stimulator (DBS) implantation for movement disorders. The Radionics CRW stereotactic system maintains unparalleled rigidity regardless of patient movement during the most demanding functional procedures. The rugged design of the Radionics CRW is constructed of high tensile strength aircraft grade aluminum enabling it to support heavy accessories such as a microelectrode drive without flexing. All coordinate settings are set with vernier scales and secured with double-lock titanium screws. The Radionics CRW Phantom Base provides invaluable independent target verification and quality assurance. In addition, the capability to completely cover the head ring with a single sterile drape ensures an unbroken sterile field even with arc setting and orientation modifications.

Two software options are seamlessly integrated with the Radionics CRW instrumentation. StereoCalc™ is a simple software solution for target and trajectory coordinates, eliminating the need for CT/MR clamping and manual coordinate calculations. ImageFusion™, NeuroSight® Arc, and AtlasPlan™ target planning software combine with the Radionics CRW to create the most comprehensive system available for treating patients with movement disorders.

This catalog is designed to facilitate the ordering process of Radionics CRW components, accessories, and software. You may look forward to additional product guides and notifications from Integra Radionics as we develop new products to complement the Radionics CRW stereotactic system and advance the state of neurosurgery.

## Radionics® CRW® Stereotactic Surgical Products

### Head Rings and Accessories

#### UCHRA

#### Universal Compact Head Ring

CT and MR scanner compatible when used with Radionics® Head Ring Screws; for use with BRWLF and LL01

##### **Includes:**

- Universal Head Ring
- Adapter Plate
- 2 Anterior and 2 Posterior Head Posts
- Cross Bar
- Cross Bar Screws
- Ear Bar Assembly
- 2 Head Ring Wrenches
- Cleaning Tap
- Sterilization Case
- User's Manual

#### UCHRAP

#### Arc Adapter Plate

The Adapter Plate allows attachment of the BRWLF and CRWASL to the UCHR

#### UCHRCASE

#### Storage and Sterilization Case

Only compatible with the UCHRA

## Radionics® CRW® Stereotactic Surgical Products

### Head Rings and Accessories

---

#### UCHRP

#### Post and Cross Bar Kit

**Includes:**

- 1 Cross Bar—Allows alternative positioning of head ring screws
- 2 Anterior/2 Posterior Posts
- 2 Cross Bar Screws

**Available Separately**

- UCHRCB1—Head Ring Cross Bar
- UCHRPA—1 Anterior Post (short)
- UCHRPP—1 Posterior Post (long)
- UCHRCBS—Head Ring Cross Bar Attachment Screw

#### UCHREBA

#### Universal Compact Head Ring Ear Bar Kit

**Includes: (2 each)**

- Head Ring Supports
- Ear Posts

#### HRW

#### Head Ring Wrench

A universal wrench used on many of the screws found in the Radionics® CRW® System including the Head Ring drives, posts, and screws.

#### UCHRHK

#### Universal Compact Head Ring Hardware Kit

**Includes:**

- Adapter Plate Attachment Screws (4)
- Intubation Hoop Attachment Screws (2)
- Head Post Attachment Screws (4)
- Head Post Wedges (4)
- Ear Bar Assembly Attachment Screws (2)
- Ear Bar Assembly Nylon Thumb Screws (2)

## Radionics® CRW® Stereotactic Surgical Products

### Head Rings and Accessories

---

#### HRAIM

#### Intubation Head Ring Assembly

CT scanner compatible; for use with BRWLF

##### **Includes:**

Intubation Head Ring

4 Head Ring Drives

4 Head Ring Posts

Head Ring Wrench

Cleaning Tap

Head Ring Positioner

2 Conical Sliding T-bolt Screws

#### HRD

#### Head Ring Drive

#### HRDXS

#### Head Ring Drive Extender/ Shortener

Lengthens or Shortens the working length of the Head Ring Posts to allow treatment of low tumors or a wide range of head sizes.

#### HRP

#### Head Ring Post

Only compatible with the HRAIM

#### TAP

#### Cleaning Tap for HRP

(Not for use with Aluminum Posts)

## Radionics® CRW® Stereotactic Surgical Products

### Head Rings and Accessories

---

#### HRKTP

#### Head Ring Positioner

**Includes: (1 each)**

Positioner Ring (not sold separately)

Velcro Strap (Also available in boxes of 5, use part No. GTCVS)

#### CSS

#### Conical T-bolt Screw

**Includes:**

CSS (1 short)—Used to attach the HRAIM and UCHRA Head Rings to the clamping plate and MAYFIELD® adapter

#### HREBA

#### Intubation Head Ring Ear Bar Kit

**Includes: (2 each)**

Head Ring supports

Ear Posts

#### HRIMS

#### Head Ring Sector

Converts the assembly to the closed ring configuration

#### HRIMTS

#### T Handle Screw

For Intubation Hoop

## Radionics® CRW® Stereotactic Surgical Products

### Imaging Localizers

---

#### BRWLF

#### CT Localizer Frame

The BRWLF is the standard in CT image localization for stereotactic procedures, requiring no clamping or scanner alignment when used with StereoCalc™ or NeuroSight® Arc software for target calculations.

#### LL01

#### Luminant® MR/CT Localizer Frame

The Luminant® MR/CT localizer represents the most advanced stereotactic localizer ever designed. The open and lightweight Luminant MR/CT localizer offers many improvements over previous localizers including no fiducial rod filing, fast and easy attachment to UCHRA, and clear and distinct rod imaging in many MR scan formats. Target calculations can be obtained manually using a clamping plate or independently (without a clamping plate) using StereoCalc™ or NeuroSight® Arc targeting software.

**LL01**—Luminant® MR/CT localizer with shipping and storage case

**LL02**—Shipping and storage case

## Radionics® CRW® Stereotactic Surgical Products

**CT Clamping Plates**—used with Conical Sliding T-bolt Screws, Head Ring and Designated Couch to facilitate selection of the appropriate clamping plate, please provide a picture of the couch mount to customer support or your sales representative.

## Radionics® CRW® Stereotactic Surgical Products

### Radionics® CRW® Arc

#### CRWASL Radionics® CRW® Lightweight Arc System

##### Includes:

**CRWLA**—Lightweight Arc (not sold separately)

**CRWASLPH**—Probe Holder (not sold separately)

**CRWASGB**—Guide Block

**KDG**—Keller Depth Gauge

**SR**—Stainless Steel Ruler

**SWTS**—Arc System Wrench

**CRWCASE**—Storage and Sterilization Case

**CRWMA**—MAYFIELD® Adapter

**DA27**—Drill Assembly, 2.7mm

**GT27116**—Guide Tube, 2.7mm I.D. x 116mm length

**GT2776**—Guide Tube, 2.7mm I.D. x 76mm length

**RB27**—Reducing Bushing, 2.7mm I.D.

**RTNBND76**—NBND I.D. x 76mm

**CSS** (2)

**User's Manual** (2)

### Radionics® CRW® System Accessories and Components

#### CRWCASE Storage and Sterilization Case

#### CRWASGB Guide Block

#### KDG Keller Depth Gauge

#### SR Stainless Steel Ruler

#### SWTS Arc System Wrench

*The SWTS is used to remove both the anterior section of the Radionics® CRW® base plate and the HRAIM intubation hoop*

### MAYFIELD® Adapters

*Enables clamping of the HRAIM and the UCHRA to the standard MAYFIELD® head-rest.*

**CRWMA** – Long vertical extension arms allow anterior/posterior positioning of the Radionics CRW® Arc on the base plate. This alternative set-up makes very low lateral surgical approaches effortless.

**CRWFMA**—Positions the patient lower on the OR table when additional support is needed.

## Radionics® CRW® Stereotactic Surgical Products

### Radionics® CRW® System Accessories and Components

#### Guide Tubes

**GT2776**—2.7mm I.D. x 76mm length

**GT27116**—2.7mm I.D. x 116mm length

**GT27160**—2.7mm I.D. x 160mm length

**GT3276**—3.2mm I.D. x 76mm length

**GT32116**—3.2mm I.D. x 116mm length

**GT32160**—3.2mm I.D. x 160mm length

**GT46116\***—4.6mm I.D. x 116mm total length\*\*

\*no reducing tube or bushing required

\*\*working length is 111mm

*Guide Tubes with 2.7mm I.D. must be used with RB27 or any of the Reducing Tubes listed below. Guide Tubes with a 3.2mm I.D. are used with RB32 and are not compatible with Reducing Tubes.*

#### Reducing Tubes

**RT1176**—1.1mm I.D. x 76mm length

**RT11116**—1.1mm I.D. x 116mm length

**RT1676**—1.6mm I.D. x 76mm length

**RT16116**—1.6mm I.D. x 116mm length

**RT1876**—1.8mm I.D. x 76mm length

**RT18116**—1.8mm I.D. x 116mm length

**RT2076**—2.0mm I.D. x 76mm length

**RT20116**—2.0mm I.D. x 116mm length

**RT20160**—2.0mm I.D. x 160mm length

**RT2176**—2.1mm I.D. x 76mm length

**RT21116**—2.1mm I.D. x 116mm length

**RTNBND76**—NBND I.D. x 76mm length

**RTNBND116**—NBND I.D. x 116mm length

**RTNBND160**—NBND I.D. x 160mm length

Reducing Tubes are compatible with Guide Tubes with 2.7mm I.D. and matching length. Reducing Tubes are commonly used with needles and electrodes.

#### Reducing Bushings

**RB27**—2.7mm I.D.

**RB32**—3.2mm I.D.

*Reducing Bushings are compatible with Guide Tubes of matching I.D. and commonly used with Drill Assemblies.*

#### CRWHK

#### Radionics® CRW® Arc Hardware Kit

##### Includes:

Trunion Ring Knob (2)

Probe Holder Screw (1)

Lateral Slide Lock Screw (2)

Slide Plate Screw (2)

Trunion Slide Screw (4)

Trunion Ring Screw (2)

Lateral Slide Lock (1)

Anterior Sector Screw (2)

#### CRWMCPH30 30 Degree Offset Probe Holder

*Provides maximum access to the surgical site by shifting the CRWASL lateral arc while maintaining trajectory and target setting.*

## Radionics® CRW® Stereotactic Surgical Products

### Quality Assurance Components

#### CRWPBS

#### Phantom Base System

##### *Includes:*

**RLPP**—Rectilinear Phantom Base

**CRWASP**—Arc System Pointer

**RLPPSP**—Sterile Pointer

**RLPPVS**—Vertical Slide Assembly

#### RLPPSP

#### Sterile Pointer

For Phantom Base System

#### RLPPVS

#### Vertical Slide Assembly

#### CRWASP

#### Radionics® CRW® Arc System Pointer

For use with Phantom Base System

#### Reticles

**CRWTBSS**—Lateral Trunions

**CRWAPBS**—Anterior/Posterior Trunions

*Reticles sets are used with intraoperative x-ray to visually confirm electrode placement at target during functional procedure*

#### CRWPBSHK

#### Phantom Base Hardware Kit

##### *Includes:*

**Sphere Hole thumb screws** (2)

**Thumb Knobs** 10-32 x 1/2" (2)

**LTLF T-Side sub assembly** (1)

**AP/Vert locking screws**

**Screw and Cap** 1/4" (1 each)

## Radionics® CRW® Stereotactic Surgical Products

### Single Use Only Sterile Devices

#### Apuzzo Stereotactic Drape

Sterile draping is easy with the Radionics® CRW® System and the Apuzzo Stereotactic Drape. Both Radionics® Head Rings operate independently from the Radionics® CRW® Arc and can be fully sterile draped after scanning. The large Apuzzo Stereotactic Drape has three small circular cutouts positioned to allow clean attachment of the Arc to the draped Head Ring. The drape also has a sticky pad to be applied at the surgical site

**ASD1**—Sterile Drape

**ASD1B**—Box of 10 Sterile Drapes

*The Apuzzo Stereotactic Drape allows the Radionics® CRW® user to drape the head ring independently of the Arc and maintain sterility throughout the stereotactic procedure.*

#### Disposable Head Ring Screws

MR/CT Compatible

These single-use Head Ring Screws are required for both Radionics® Head Rings; the Intubation Head Ring for CT scanning and the Universal Compact Head Ring for both CT and MR scanning. Rigid inner aluminum pins provide secure purchase to the patient's skull. They are available in two sizes, long and short

**DHRSL5:** 48mm/ Box of Long Screws 5 packs / 2 Screws per pack

**DHRSS5:** 34mm / Box of Short Screws 5 packs / 2 Screws per pack

#### CRWBP

#### CRW® BiopsyPlus Kit

##### Includes:

Nashold Biopsy Needle with depth and target markings (1)

Long biopsy bushing (90mm)

Short biopsy bushing (60mm)

Nylon thumbscrew for securing the bushing into the CRW® guide block (2)

12" Aspiration line

#### NBND

#### NBND5

#### Nashold Biopsy Needle, Disposable

#### Nashold Biopsy Needle, Disposable

#### (Box of 5)

Radionics® Nashold Biopsy Needles are individually sterile packaged and are available in a box of 5.

249mm Needle Length

2.0mm O.D.

10mm Side Cutting Window

##### Compatible with:

RTNBND76 & GT2776

RTNBND116 & GT27116

RTNBND160 & GT27160

#### HRAIM Adapter Plate

#### GEOUCHRAK

#### UCHR Adapter Plate

#### GEOPH1

#### Geometric Phantom with HRAIM Adapter

**Includes:**

GEOSYS

GEOBRWAK

#### GEOPH3

#### Geometric Phantom with UCHR Adapter

**Includes:**

GEOSYS

GEOUCHRAK

## Radionics® CRW® Stereotactic Surgical Products

### Instrument Drive System

---

#### CRWPMDD

#### Digital Probe MicroDrive

**Includes:**

**Digital Probe MicroDrive**

**CRWPMDB20**—2.0mm Bushing

**CRWPMDB25**—2.5mm Bushing

**CRWPMDB30**—3.0mm Bushing

**PMDCASE**—Sterilization Case

---

#### CRWMS

#### Probe Micro-Slide

**Includes:**

**Probe Micro—Slide**

**CRWPMDB20**—2.0mm Bushing

**CRWPMDB25**—2.5mm Bushing

**CRWPMDB30**—3.0mm Bushing

# Radionics® CRW® Stereotactic Surgical Products

## Drill and Kits

### Drill Assemblies

- DA27**—2.7mm Drill Assembly with Depth Stop, Guide Tube, Hex Wrench
- DA27D**—2.7mm Drill Assembly with Hex Wrench
- DA32**—3.2mm Drill Assembly with Depth Stop, Guide Tube, Hex Wrench
- DA32D**—3.2mm Drill Assembly with Hex Wrench
- DA46**—4.6mm Drill Assembly with Depth Stop, Guide Tube, Hex Wrench
- DA46D**—4.6mm Drill Assembly with Hex Wrench
- DA63**—6.3mm Drill Assembly with Depth Stop, Guide Sleeve, Guide Block and Hex Wrench
- DA63D**—6.3mm Drill Assembly with Hex Wrench

### Drill Depth Stops

- DADS27**—Drill Depth Stop for DA27
- DADS32**—Drill Depth Stop for DA32
- DADS46**—Drill Depth Stop for DA46
- DADS63**—Drill Depth Stop for DA63

### SDK

### Salcman Drill Kit

#### Includes:

- DA63GB**—Guide Block
- DA63GS**—Guide Sleeve
- GT27116**—Guide Tube, 2.7mm
- GT32116**—Guide Tube, 3.2mm
- GT46116**—Guide Tube, 4.6mm
- RB27**—Reducing Bushing, 2.7mm
- RB32**—Reducing Bushing, 3.2mm
- SD20**—Salcman Drill, 2.0mm
- SD27**—Salcman Drill, 2.7mm
- SD32**—Salcman Drill, 3.2mm
- SD46**—Salcman Drill, 4.6mm
- SD63**—Salcman Drill, 6.3mm (Salcman Drills Include Depth Stop)
- SDD**—Salcman Drill Driver
- SDKCASE**—Case

### SDD

### Salcman Drill Driver

### DA63GB

### Guide Block

*For use with SD63 and DA63GS*

### DAG3GS

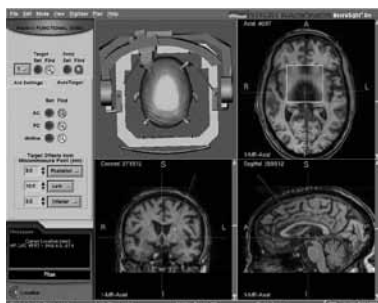

### Guide Sleeve

*For use with SD63 and DA63GB*

## Radionics® CRW® Stereotactic Surgical Products

### Stereotactic Planning Software

#### ST1000

#### NeuroSight® Arc Software (Laptop)

*NeuroSight® Arc Trajectory Planning Software reconstructs and displays multiple image sets for accurate 3D targeting and trajectory planning for functional neurosurgery, tumor biopsy, and any procedure requiring precise stereotactic planning. NeuroSight® Arc software features autotargeting, midline correction, and preplanning on non-localized images.*

##### Also available:

**ST2000**—Module to OmniSight® Excel

**ST3000**—Desktop computer with 20" flat panel desktop, keyboard, mouse

#### IF3000

#### ImageFusion™ Software

*ImageFusion™ software correlates multiple image modalities including CT and a range of MR image types for the highest accuracy available.*

#### ATLASSW

#### AtlasPlan™ Software

*AtlasPlan™ software is dynamically linked to NeuroSight® Arc and provides target confirmation using anatomic detail from a trusted source.*

#### SCSWCD

#### StereoCalc™ Software (CD-ROM)

*StereoCalc™ software is a unique, straightforward target planning software that eliminates the need for manual target coordinate calculations.*

##### Also available:

**HPPCI**—StereoCalc™ on a laptop computer

## Training User's Manuals

---

**15960003** Radionics® CRW® System

**60901036** NeuroSight® Arc Software

**72901270** ImageFusion™ Software

**60901043** AtlasPlan™ Software

**60901113** StereoCalc™ Software

PrecisionTip™ and Flue.....	56
PrecisionTip™ Series .....	56
Probe Micro-Slide .....	152
Probe Micro—Slide.....	152
Probe Micro-Slide- CRWMS .....	152
Pudenz Infant.....	110
Pudenz Infant Atrial Catheter.....	110
Pudenz Pressure Rated Catheters.....	108
Pudenz Right-Angle Ventricular Catheter.....	105
Pudenz Small Ventricular Catheter .....	105
Pudenz Standard .....	110
Pudenz Standard Atrial Catheter.....	110
Pudenz Standard Ventricular Catheter .....	105, 106
Pudenz Valve .....	86, 87
Pudenz Valve, 12mm Diameter.....	87
Pudenz Valve, 16mm Diameter.....	87

## Q

Quality Assurance Components .....	149
------------------------------------	-----

## R

Radiolucent Systems.....	21, 22
Radionics® CRW® Arc Hardware Kit.....	148
Radionics® CRW® Arc System Pointer .....	149
Radionics® CRW® Lightweight Arc System .....	147
Radionics® CRW® Arc Hardware Kit.....	148
Radionics® CRW® Arc .....	147

Radionics® CRW® Arc System Pointer .....	149
Radionics® CRW® Lightweight Arc System.....	147
Radionics® CRW® Stereotactic Surgical Products.....	141-154
Radionics® CRW® System Accessories and Components.....	147, 148
Radiopaque Polypropylene Connectors.....	115
Reducing Bushings .....	148
Reducing Tubes.....	148
Reflux Control .....	108
Reflux Control Peritoneal Catheter .....	95, 108
Replacement Peritoneal Introducer Sheaths .....	112
Reticles .....	149
Re-Usable Nosecone/23 kHz.....	58
Re-Usable Nosecone/36 kHz.....	58
Reusable Peritoneal Introducers .....	112
Rickham-Style CSF Reservoir .....	101
Right Angle Ventricular Catheters.....	106

## S

Salzman Drill Driver .....	153
Salzman Drill Kit .....	153
SAMY™ Vascular Retractors.....	24
SELECTOR® NEURO HANDPIECES .....	42, 44
Shimadzu.....	146
Shunt Accessories .....	114
Shunt Implantation Instruments .....	111-113
Side-Inlet Integra Reservoir.....	98
Siemens .....	146
Single Use Only Sterile Devices .....	150
Skull Clamps and Headrest Systems .....	9-12
Skull Pins.....	18-20
Specimen Trap .....	59
Spetzler® Lumbar-Peritoneal CSF Reservoir .....	92
Spetzler® Lumbar-Peritoneal In-Line Valves.....	92
Spetzler® Lumbar-Peritoneal Shunt Kit .....	91
Sphenoidal Electrodes.....	133
Stainless Steel Connectors .....	115
Stainless Steel Ruler- SR .....	147
Standard Integra DP™ Valve Units.....	81
Standard Integra Reservoir .....	98
Standard Tip and Flue .....	55, 57
Standard Tip and Flue/23kHz.....	54
Standard Tip Series.....	55, 57
Stepdown Connector.....	95, 114
StereoCalc™ Software (CD-ROM) .....	154
Stereotactic Planning Software.....	154
Stereotaxy .....	137
Sterile Pointer for Phantom Base .....	149
Sterile Torque Wrench/23 kHz.....	54, 59
Sterile Torque Wrench/36 kHz.....	54, 59
Sterilizable Torque Base/23 kHz.....	54, 59
Sterilizable Torque Base/36 kHz.....	54, 59
Sterilization Case/23 kHz.....	54, 59
Sterilization Case/36 kHz.....	54, 59

# Alphabetical Index

Storage and Sterilization Case (UCHRA CASE) .....	141
Storage and Sterilization Case (CRW CASE) .....	147
Straight Extended MicroTip™ and Flue .....	56
Straight Extended PrecisionTip™ and Flue .....	56
Straight Extended Standard Tip and Flue .....	55, 57
Straight Handpiece/23 kHz .....	58
Straight Handpiece/36 kHz .....	58
Straight Plates .....	35, 36
Straight With Nosecone Handpiece/23 kHz .....	54
Straight With Nosecone Handpiece/36 kHz .....	54
Strip Electrodes .....	119, 120
Subcutaneous Tube Passer .....	113
Suturable DuraGen™ Dural Regeneration Matrix .....	4
